POLICY: Early Enrollment and Courses for High School Students

A. Purpose & Scope:
To describe the process and procedure for early admission of high school students

B. Definition(s):

C. Policy:
The University approves education opportunities for high-school students only under exceptional circumstances and only with the full cooperation of a student’s high-school principal.

D. Procedure(s):
Most frequently, students are permitted to take some university course on part-time basis before graduation from high school. Occasionally early admission to full-time study as a degree candidate at the university is granted, but only after a mutually satisfactory agreement has been reached between the university and the high school involved. The university does not recruit high-school juniors for early admission. Final decisions about advanced standing applications are made by the Associate Vice-President of Academic Affairs.
