CMMC Training Series
Session 3 – Live In Person Seminar

Regional Learning Alliance
850 Cranberry Woods Drive
Cranberry Township, PA 16066

April 25, 2024
9:00 – 11:30 a.m.
Room 2113

Your Company's CMMC Questions Answered

Join us for the final training session in our three-part series focused on the Cybersecurity Maturity Model Certification (CMMC) rules and compliance. The first webinar in the series focused on CMMC changes and the new published rule. The second session discussed how your responses to the NIST 800-171 controls affect your SPRS score and the company's cyber compliance. At this final session, Mr. Kevin Slonka will answer your specific questions about cyber controls for your organization. This event is your opportunity for free CMMC advice and counseling. Don't miss out on this opportunity. **The questions you want addressed at the seminar must be submitted to GACO by the close of business Monday, April 22nd at gacoapexaccelerator@pennwest.edu**.

About Our Speaker

Kevin Slonka, Principal IT Security Consultant at CTC, leads CTC's cyber security consulting with Pennsylvania small/medium businesses and is also the Information Systems Security Manager (ISSM) for one of their three-letter-agency contracts. Kevin is also a Computer Science and Cyber Security professor at Saint Francis University.
