Perceptual Differences Across Generations of American Dialects

Presented by Lindsie Hammaker

April 24th, 2015 at 10:00 AM

Smith Hall Room 144

Figure 3: People from all three regions tend to say *soda* more, and *pop* is the second most common term used.

Figure 4: People from all three regions tend to say *soda* more, and *coke* seems to be used a little more in the Midland and Inland North regions.
