CALIFORNIA UNIVERSITY’S STATEMENT TO STUDENTS REGARDING POLICY, STANDARD OF CONDUCT & PROGRAMS IN SUPPORT OF THE DRUG-FREE SCHOOLS ACT

We strongly encourage each Cal U student to read and become thoroughly familiar with this statement. The Drug-Free Schools and Campuses Regulations require that California University of Pennsylvania distribute this information in writing to all students annually. This document provides information concerning:

- California University’s BILL OF RIGHTS AND RESPONSIBILITIES.
- The STUDENT CODE OF CONDUCT which clearly prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol on school property or as part of any school activities.
- Applicable legal SANCTIONS under federal, state, or local law for the unlawful possession or distribution of illicit drugs and alcohol, including a clear statement that the institution will impose disciplinary sanctions on students and employees (consistent with federal, state, or local law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct.
- The HEALTH RISKS associated with the use of illicit drugs and the abuse of alcohol.
- Alcohol or other drug counseling, treatment, rehabilitation, and re-entry TREATMENT RESOURCES available to employees or students.

Cal U is committed to providing a substance-free campus. In fact, the University prohibits the possession, use or sale of alcohol and other mind-altering substances on campus. California University of Pennsylvania, as required by the Drug-Free School and Communities Act Amendments of 1989 (Public law 101-226), hereby declares that the unlawful manufacture, possession, use or distribution of illicit drugs and alcohol by students and employees is prohibited at any university activity. Students violating this policy will be subject to the penalties and procedures prescribed in “Statement of Student Rights and Responsibilities: Student Code of Conduct” promulgated in 1998.

In response to issues and concerns associated with students, Cal U provides intervention through the BASICS program and University Counseling Center and education and prevention are provided jointly by the Health and Wellness Education Center and the AOD Prevention Specialist.

BILL OF RIGHTS AND RESPONSIBILITIES

Cal U works to achieve its mission of Building Character and Careers by fostering an environment that encourages learning, both in and out of the classroom. The adoption of the Core Values of Civility, Integrity and Responsibility, is an effort to achieve an educationally-supportive environment by your voluntary commitment to live by these values. In addition to the Core Values, the University has adopted a Bill of Rights and Responsibilities for members of the university community that describes the commitments we should make with each other as members of the University Community:

- We have the right to safety and security.
  - We have the responsibility to ensure the safety and security of others.
- We have the right to be treated with respect.
  - We have the responsibility to treat others with respect.
- We have the right to expect the best.
  - We have the responsibility to give our best.
- We have the right to be treated fairly.
  - We have the responsibility to treat others fairly.

It is hoped students will reflect on their Bill of Rights and Responsibilities and determine how these commitments can be incorporated into their lives. Experiences at the University will challenge students and provide opportunities for personal growth as part of Building Character.

STUDENT CODE OF CONDUCT

The Student Code of Conduct identifies behaviors which are aligned with the Bill of Rights and Responsibilities and those which are not in order to assist students in learning what behaviors are appropriate in a university environment. Compliance with the Student Code of Conduct is not voluntary. Behavior that violates the Bill of Rights and Responsibilities as defined below will be considered violations of the Student Code of Conduct and may result in disciplinary action through the Office of Student Conduct.

The following excerpts from the STUDENT CODE OF CONDUCT provide students with important information regarding California University of Pennsylvania’s standards of conduct, sanctions, health risks, services and disciplinary approach as may be associated with alcohol and other drugs.

JURISDICTION
The President of California University of Pennsylvania, with the approval of the Council of Trustees, is authorized under Act 188 - which created the Pennsylvania State System of Higher Education of which this University is a part - to create rules of student conduct. These rules and procedures apply to all students and are applicable to behavior occurring both on and off university property. All recognized student organizations are expected to abide by the same regulations as individual students.

This Student Code of Conduct supersedes all previous versions of student codes of conduct and is effective as of August 27, 2009. The Vice President for Student Affairs or designee is responsible for implementing and managing the Student Conduct System including interpreting any ambiguities or decide any questions about the application of this code.

The conduct process is an administrative function of the university and is separate and independent from all legal proceedings. Students are expected to obey all local, state and federal laws. Both university disciplinary and legal proceedings may be used to address actions that violate both university policy and any law. The university does not waive taking disciplinary action due to criminal or civil proceedings or view disciplinary action as a substitute for legal proceedings.

Specific rules for the use of university resources or participation in university functions may be developed in addition to this code of conduct. These rules, such as the Residence Life Rules and Regulations and the Greek Life Guidelines, may be dealt with by the offices in charge of the resources or functions or referred to the Office of Student Conduct as deemed appropriate by the university based on the nature of the action.

SANCTIONS
The following sanctions comprise a range of official action that may be imposed for violation of regulations by individuals or groups. One or more sanctions may be imposed at the discretion of the hearing officer or board in an effort to promote behavioral change. Sanctions attempt to teach alternative behaviors; increase personal and social skills; increase a student's awareness of obligations to others; demonstrate implications of actions; and explain rationale behind regulations. This list does not limit the actions available to a hearing officer or board and is not inclusive of all possible actions that could be taken as a result of a violation of university policy. Students found responsible for violations will receive a minimum of disciplinary warning with expulsion being the maximum sanction.

Disciplinary Warning
This action is taken when the individual’s conduct or involvement merits an official admonition that can be either verbal or written. The student is warned that further misconduct may result in more severe disciplinary action. A disciplinary warning is intended to promote reflection on the decisions and behavior leading up to a violation and promotes an increased awareness of the university's behavioral expectations.

Disciplinary Probation
This action is designed to assist students in developing behavior appropriate to the university community through placing them on a warning status. There are three types of probation listed below which may be imposed depending on the type and severity of the violation.

1. Residence Hall Probation - A change in student status for violating Residence Life Rules and Regulations involving written notice of the probation, its terms, and time limit as established by the Hearing Officer or Residence Life Conduct Board. Privileges of residents, including visitation, may be revoked for all or part of the time the resident is on probation. The resident is also informed that further violations may result in greater levels of sanctions. This level of probation is intended to provide the student an opportunity to reflect on and learn from their behavior while increasing their awareness of the impact of their behavior on themselves and others and of the university's behavioral expectations. The importance of making mature decisions is stressed while a student is on probation.

2. University Probation Level I – A change in student status involving written notice of the probation, its terms, and time limit as established by the Hearing Officer or University Conduct Board. The student is notified that further infractions of any University regulation may result in more stringent restrictions being placed on his/her actions. This level of probation is intended to provide the student an opportunity to reflect on and learn from their behavior while increasing their awareness of the impact of their behavior on themselves and others and of the university’s behavioral expectations. The importance of making mature decisions is stressed while a student is on probation.

3. University Probation Level II - The most serious level of conduct sanction short of suspension from the University during which the student is considered not in good standing. The student remains enrolled at the University under circumstances defined by Hearing Officer or University Conduct Board and may not represent the University in any official capacity or hold office in any student organizations including, but not limited to, varsity or non-varsity intercollegiate athletic events or teams, recognized student organizations, theater groups or productions, musical organizations, or SAI Senator or Officer positions. This probation level indicates to the student that further violation(s) of University regulations will result in more stringent conduct action, including but not limited to suspension or expulsion from the University. This level of probation is intended to promote reflection on the student’s behavior and
decisions while stressing making mature decisions, engaging in critical thinking and developing more appropriate behavior as a member of the university community.

**Behavior Contract**
A student and hearing officer may reach a written agreement concerning expectations for future behavior and decisions to assist in preventing inappropriate behavior from recurring.

**Residence Hall Reassignment or Removal**
This action is an involuntary reassignment to another hall or removal from on-campus housing altogether for a designated period of time and may include restricted visitation privileges. Usually, a student is given forty-eight hours to remove all belongings from an assigned space and reimbursement of room charges will be based on the official university refund schedule for removals. This sanction is imposed to protect the welfare of a residence hall or floor community and students having this sanction imposed should reflect on the behavior necessary for an individual to be part of a residential community by respecting others, developing critical thinking skills and mature decision-making skills.

**Restriction of Privileges**
This action consists of an effort to assist students in developing an awareness of the responsibilities that go along with privileges and increase an awareness of appropriate behavior and how decisions impact themselves and others. Under this sanction, students may be restricted from entering certain buildings, attending certain events or using specific programs due to their behavior. Residence hall students may have their visitation privileges restricted or revoked for a certain time period or specific guests may not be allowed into a residence hall. Participation in university organizations or holding office in organizations or other privileges can also be included under this sanction as deemed appropriate by the hearing officer or board based on the incident.

**No Contact Directive**
This action is implemented at the discretion of a hearing officer directing a student to avoid initiating contact with another member of the university community and may include limiting access to areas to avoid incidental contact. A no contact directive may be imposed at a student’s request without conduct proceedings if it does not involve any accommodation changes. Contact includes direct interactions in person or through technology as well as the use of third parties to interact.

**Suspension of Group Recognition**
This action consists of the withdrawal of all or part of the official recognition of a group for a stated period of time and will include conditions for reinstatement of recognition. This sanction is intended to assist groups in developing a stronger sense of the responsibilities which goes along with the privileges of university recognition and a commitment to be a positive part of the university community.

**Revocation of Group Recognition**
This action is permanent cancellation of the official University recognition and privileges of a group found in violation of University regulations.

**Restitution Fines**
A student or organization may be required to make payment to the University or to another specified person(s) or group(s) for damages incurred as a result of a violation of behavioral expectations. Restitution fines may be imposed by the University in addition to any other sanction to promote responsibility for actions and an awareness of the consequences for behavior.

**Restitution Service**
As part of the sanctioning process, students can be required to perform service to assist in developing increased awareness of the impact of their decisions and strengthen critical thinking abilities to identify appropriate behavior. These services can include performing assigned duties, sponsoring programs, etc.

**Educational Activity**
A student or organization may be required to complete an educational activity or project relating to the violation to assist in their developing increased awareness of the impact of their decisions, strengthen critical thinking abilities to identify appropriate behavior and an increased sense of responsibility, integrity and civility.

**Conduct Referrals**
Hearing officers may refer students found responsible for violations to campus resources to assist, educate or monitor them in the development of appropriate behavior, critical thinking skills, mature decision-making skills, etc. These referrals are mandatory and failure to complete a referral could result in additional conduct action. Referrals may include the CHOICES Alcohol and Other Drug Education Program, the Counseling Center, etc., and could include drug testing for violations related to drug use.

Registration Hold
A hold may be placed on a student’s registration if the student has failed to complete a sanction or withdraws prior to official conduct on an allegation. Holds are intended to be temporary until either the sanction or conduct process is complete. Registration holds may also be used during periods of interim suspension, suspension or expulsion.

Interim Suspension
The President or his/her designee may suspend a student for an interim period pending full conduct proceedings whenever there is evidence that the continued presence of the student at the University poses a substantial threat to the safety and/or well being of any member of the university community or university or private property. An interim suspension may be effective immediately without prior notice; however the decision may be appealed to either the Associate Dean for Student Conduct, Associate Vice President or Vice President for Student Affairs and Services and will be handled as outlined in the Appeal Procedures except that the time lines will not apply. The student shall be given an opportunity to appear personally before a hearing officer or board within 10 class days from the effective date of the interim suspension unless extenuating circumstances warrant an extension, in which case a hearing will be provided at the earliest possible date. Both the student(s) and the university must agree to an extension that may be left open ended. By agreeing to an extension, the student accepts the decision of interim suspension and any conditions imposed as part of it. During an interim suspension, the student will be barred from all or part of the University’s premises, as designated by the hearing officer. A student under interim suspension who returns to the portion of campus from which s/he was barred without permission from the Vice President for Student Affairs and Services will be subject to dismissal and/or arrest for trespassing.

Suspension
This action is an involuntary separation of a student from the University for a designated period of time after which s/he is eligible to return. The Associate Dean for Student Conduct or Associate Vice President for Student Affairs may establish requirements for reinstatement, which must be fulfilled to his/her satisfaction. The student may not participate in any University sponsored activity and may be barred from University premises during suspension. Reimbursement of university charges or fees for students removed from the university due to conduct action will follow the official refund schedule for withdrawals. This action is designed to protect members of the university community and their property, promote critical thinking and mature decision making skills, self-reflection on behavior and the impact it had on the student and others.

Expulsion
This action is one of involuntary and permanent separation from the University. The student will be barred from all University activities and property following expulsion. Reimbursement of university charges or fees for students removed from the university due to conduct action will follow the official refund schedule for withdrawals.
