

Everyone,

Here are answers to some recently asked questions. (We will add this information to our FAQ on the parking website as well.)

- When you complete the pre-registration form and hit “submit,” you will receive a “thank you,” which is your notification that the form has been successfully completed.
- It will be possible to register multiple vehicles during the “registration” process, which will run from Aug. 2 through Aug. 11. As many of you know, it is not possible to register more than one vehicle during the “pre-registration” process, which is currently under way and will run through July 6.
- Only the boxes marked with an asterisk represent required fields on the pre-registration form. The VIN number, for example, is not marked with an asterisk, so it is not a required field.
- Those registering for handicapped spaces will be given two parking options if they are managers or students and three parking options if they are bargaining unit employees. These options are as follows:
 1. Managers and Students with handicapped placards will have the option of Tier 1 parking (at Tier 2 rates) and reserved parking (at reserved rates).
 2. Bargaining unit members with handicapped placards will have the option of Tier 1 parking (at Tier 2 rates), reserved parking (at reserved rates) or free parking at Roadman Park.
- The adjustment of Tier 1 parking at Tier 2 rates will be made when you apply for your permit in August.
