INTRODUCTION

This handbook offers Cal U students a quick and easy guide to university programs, activities and services. While not always encyclopedic in its descriptions, it does tell you where to go for information, help with problems, and what have you. In addition, it describes and tells you where to find the university catalog and other useful and more-detailed publications.

The handbook’s main entries are alphabetized—with cross-references in LARGE AND SMALL CAPITALS—so you should have no trouble finding what you want.

University telephone numbers are listed as four-digit extensions; off-campus numbers are given in full. (All university prefixes are 938.) California’s area code is 724.

Note: California University of Pennsylvania and the Student Association, Incorporated are not liable or responsible for inaccuracies or omissions in this handbook. The university and the Student Association, Inc. reserve the right to repeal, change or amend the rules and regulations contained in this publication at any time.

DECLARATION OF A CAMPUS STATE OF EMERGENCY (EOP Section 1.7.4.A)

The authority to declare a campus state of emergency rests with the University President or EAD after an evaluation of the emergency and the current state of the University.

However, the Emergency Operations Coordinator (EOC) may also declare a state of emergency if an incident requires an immediate response for the security and control of the incident site.

University Notification System (EOP Section 1.6)

The Cal U Alerts is the text messaging system used to quickly notify registered users of campus emergencies, per the University’s Integrated Communications Plan. When an alert is issued, the Cal U website will provide detailed information regarding the emergency.

Other communication tools are available for use in emergencies and are detailed in the Integrated Communications Plan.

CAMPUS RESPONSIBILITY DURING AN EMERGENCY OR DISASTER:

Emergency Administrative Director (EAD): (Vice President for Administration and Finance — 724-938-4432) The EAD assumes overall direction during an emergency and is responsible for employing the guidelines within the Emergency Operations Plan.

Emergency Operations Coordinator (EOC): (Director of California University Police — 724-938-4299). As the EOC, the Director of California University Police is responsible for overall coordination of the university’s response to an emergency.

Emergency Command Team (ECT): The ECT provides overall leadership and guidance to the University community during an emergency or disaster.

Campus Emergency Resource Team (CERT): The CERT notifies the members of the Campus emergency resource team (CERT).

Media Relations: (Director of Public Affairs: 724-938-5492) The Office of Public Affairs will coordinate media relations and act as the link between the University and the public. The Director of Public Affairs will serve as the University’s media contact for all details regarding the event, e.g. specifics on the threat, California University’s response to the threat, extent of injuries, etc.

Specific Emergency Response Guidelines

The following guidelines are only highlights of the detailed response procedures located in the applicable section of the Cal U Emergency Operations Plan (EOP)

I. Reporting Incidents, Emergencies, or Disasters (EOP Section 3.2)

1. From a safe location, report all emergencies to the Office of California University Police by dialing “HELP” from a campus phone, “*1” from a campus public pay phone or 724-938-4299 from a cellular phone.

2. In case of an emergency off campus, Dial: 911.

3. When calling, stay calm and carefully explain the problem and location to the officer.

II. Evacuation Procedures (EOP Section 3.5)

The main assembly areas in case of an emergency are:

- B parking lot (across from Dixon Hall)
- Parking lot behind Residence Halls A & B

Building Evacuation

1. When building evacuation alarm sounds and/or upon notification by California University Police during an emergency, leave by the nearest marked exit or in accordance with the posted evacuation plan and alert others to do the same.

2. Stay Calm. Do Not Panic

3. If safe to do so, assist the disabled in exiting the building.

4. Once outside, proceed to a clear area that is at least 300 feet away from the affected building.

5. DO NOT return to an evacuated building unless told to do so by California University Police personnel.

Building Evacuation for Disabled Individuals

1. As soon as the alarm sounds, proceed to an enclosed stairwell, if possible.
III. Biological, Chemical, or Radiation Incident (EOP Section 3.4)
1. Any suspicious package received should be left untouched.
2. The location in which the package is located should be evacuated and California University Police notified immediately at ext. 4299 or (724) 938-4299.
3. It is important for anyone who comes in contact with the suspicious package not to be in contact with other people if at all possible. These individuals should remain isolated until cleared by California University Police.
4. Any exposure to a hazardous biological, chemical, or radioactive material must be reported immediately to California University Police at ext. 4299 or (724) 938-4299.
5. When reporting, be specific about the nature of the involved material and exact location.
6. All persons (students and employees) are to immediately vacate the area in question and relocate to the designated main assembly areas.

IV. Bomb Threat (EOP Section 3.5)
1. If a suspicious object or potential bomb is observed, do not handle the object. Call California University Police at extension 4299. Clear the area immediately according to the building evacuation instructions listed below.
2. If you receive a written bomb threat, set it aside and call California University Police at ext 4299 or (724) 938-4299. Do not handle the note or the letter further.
3. If you receive a telephone bomb threat, be calm, courteous, listen, and do not interrupt the caller. Try to notify a person nearby of the bomb threat so that California University Police (ex. 4299 or (724) 938-4299) can be notified as soon as possible.
4. The individual receiving the bomb threat is responsible for carefully recording the information and then immediately notifying their supervisor and the California University Police Department.
5. Keep the caller on the line as long as possible and ask the caller the following:
   - When is the bomb going to explode?
   - Where is the bomb located?
   - What kind of bomb is it?
   - Background noise
   - What does the bomb look like?
6. Keep the caller on the line as long as possible and ask the caller the following:

BUILDING EVACUATION PROCEDURE IF THERE IS A SUSPICION OF A BOMB IN THE BUILDING
1. Employees, faculty, and students should not search on their own. Opening and closing doors, drawers, and cabinets or turning off lights may activate the bomb.
2. The building should be cleared as quickly as possible but do not activate the fire alarm system as this may activate the bomb.
3. Elevators should not be used as this may activate the bomb.
4. Once outside, persons should move at least 500 feet away from the affected building and stay clear of walkways and streets that may be used by emergency vehicles and crews.
5. Do not return to an evacuated building unless permitted to do so by a California University Police Officer.
V. Civil Disturbance, Strikes or Demonstrations (EOP Section 3.6)

Peaceful and Non-Obstructive Demonstrations
1. Peaceful and non-obstructive demonstrations will not be disrupted unless one or more of the following conditions exists as a result of the demonstration:
   • Interference with the normal operations of the University
   • Prevention of access to offices, buildings or other University facilities.
   • Threat of physical harm to persons or damage to University facilities
2. If any of the above conditions exist, call the Office of California University Police at (724) 938-4299.

Non-Violent Disruptive Demonstrations
1. Non-violent disruptive demonstrators will be asked to terminate the disruptive activity by one of Cal U’s Vice Presidents or his/her designee.
2. If demonstrators persist in the disruptive activity, they will be informed that continuing the disruptive activity could result in suspension, disciplinary actions and/or possible arrest.
3. Efforts should be made to secure positive identification of demonstrators in violation of the termination request, including photographs.

Violent Disruptive Demonstrations
In the event of a violent demonstration, the Cal U President and appropriate Vice-President or their designee will be notified.

DURING BUSINESS HOURS
1. The appropriate Vice-President will notify California University Police.
2. California University Police will contact the Pennsylvania State Police and the Cal U University Public Affairs Director.
3. The President, in consultation with the appropriate Vice President and the Director of California University Police, will determine the possible need for an injunction.
4. California University Police will provide an officer with a radio for communication between the university and the State Police as needed.

AFTER BUSINESS HOURS
1. California University Police should be notified immediately of the disturbance.
2. California University Police will investigate the disruption and notify the Director of California University Police who will report to the appropriate Vice Presidents and the President of the situation.
3. The Director of California University Police or designee reserves the right to call for police assistance without counsel from others if it is deemed to be of paramount importance to the safety of persons involved.

VI. Terrorism (EOP Section 3.7)
If you suspect a credible terrorist threat exists based on your own observations or conversations that you have overheard, contact the Office of California University Police at (724) 938-4299 or the local office of the FBI in Pittsburgh, Pennsylvania at (412) 432-4000.

The following are examples of items that should be considered a potentially legitimate threat. This list is NOT meant to be all-inclusive.
1. An individual(s) makes a specific threat (says they have a device with a contaminant that they intend to, or have, disperse(d) into the area or into food/water being consumed.)
2. An individual(s) in an area intentionally disperses something into the air using a mechanical device (with or without any communication or threat)
3. A package or other article is discovered that has specific wording or other identification on it: identification of bomb or contaminate within; has threats or threatening wording on it; hate, or anti-American sentiments on it (e.g., Anthrax, explosives, “you will die . . .,” etc.) An abandoned package is discovered that is ticking or leaking a suspicious substance.
4. People in an area begin to complain of similar symptoms that have come on them suddenly (may be a potential chemical assault or accidental release of chemical irritant).
5. Telephoned threat of a chemical or biological assault. [This should be handled the same as a bomb threat and will not constitute an immediate evacuation of the building – follow bomb threat procedures and call Office of California University Police – unless other indicators are present as well (i.e., coincides with one or more of the other conditions previously identified).]

Take precautions when traveling. Be aware of conspicuous or unusual behavior. Do not accept packages from strangers. Do not leave luggage unattended. Unusual behavior, suspicious packages, and strange devices should be promptly reported to the Office of California University Police at (724) 938-4299.

VII. Violent or Criminal Behavior (EOP Section 3.8)
WITNESS TO CRIMINAL OR VIOLENT BEHAVIOR
If you are a victim or a witness to any on-campus offense:
1. AVOID RISKS!
2. Promptly notify California University Police at (724) 938-4299 and report the incident, including the following information:
   • Nature of the incident
   • Location of the incident
• Description of person(s) involved.
• Description of property involved.

VIII. Explosion on Campus (EOP Section 3.9)
1. Immediately take cover under tables, desks and other objects that will give protection against falling glass or debris.
2. After the effects of the explosion and/or fire have subsided, notify the California University Police Department at (724) 938-4299. Give your name and describe the location and nature of the emergency.

IX. Fire (EOP Section 3.10)
1. If a fire is discovered, activate a pull station.
2. Immediately notify California University Police by phone at (724) 938-4299.
3. If the fire is in the very early stages and you have attended fire extinguisher training AND you feel confident that you can extinguish the fire without endangering yourself and others, fight the fire with a fire extinguisher from a position where you can escape. Small fires can often be extinguished.
4. A fire that is large or spreading cannot usually be extinguished successfully. If possible, shut down any equipment which may add fuel to the fire.
5. Leave the fire area and prevent its spread by closing the doors behind you.
6. Evacuate the building by the closest marked exit and await the arrival of California University Police. Be prepared to inform them of the exact location, details of the fire, and any chemicals that are stored or used in the area.
7. Once outside, move to a clear area at least 300 feet away from the affected building.
8. If your clothes catch fire, drop to the floor and roll to smother the flame. If a fellow coworker's clothing catches fire, knock the person to the floor and roll him/her to smother the flames.
9. Do NOT return to an evacuated building unless told to do so by California University Police Officer.
NOTE: If you become trapped in a building during a fire and a window is available, place an article of clothing (shirt, coat, etc.) outside the window as a marker for rescue crews. If there is no window, stay near the floor where the air will be less toxic. Shout at regular intervals to alert emergency crews of your location. Do not panic.

X. Earthquake (EOP Section 3.11)
Remain calm and quickly follow the steps outlined below.
1. If indoors, seek refuge in a doorway or under a desk or table. Stay away from glass windows, shelves, and heavy equipment.
2. If outdoors, move quickly away from buildings, utility poles and other structures. Caution: Always avoid power or utility lines, as they may be energized. Know your assembly points.
3. If in an automobile, stop in the safest place available, preferably away from power lines and trees. Stop as quickly as safety permits, but stay in the vehicle for the shelter it offers.
4. Evaluate the situation and, if emergency help is necessary, call the Office of California University Police at (724) 938-4299.
5. Damaged facilities should be reported to the Office of California University Police and the Physical Plant Department.

XI. Floods (EOP Section 3.12)
If flooding occurs, or the conditions exist that could cause flooding to occur, observe the following:
1. Listen to the radio or watch television weather broadcasts to keep appraised of weather watches or warnings.
2. Listen to National Weather Service/National Oceanic and Atmospheric Administration (NOAA) radio broadcasts if a weather radio is available. Washington/Fayette NOAA weather can be found at 162.550 MHz.
3. Go online to track the storm and be aware of weather alerts/warnings at http://www.nws.noaa.gov/nwr.
4. If a flood watch or warning occurs for the area you are in, move to higher ground immediately. Do not delay if a warning is posted.
5. If you are in a campus building that begins to flood notify California University Police immediately at ext. 4299 or (724) 938-4299 on a cell phone.
6. Then leave the building for a facility that is not flooding.
7. When traveling do not drive through flooded roadways.
8. If a vehicle stalls in water, leave the vehicle immediately and move to higher ground.
9. Be extra cautious when driving at night, for it is more difficult to recognize flood signs, or the depth of water.
10. During heavy rains or flood alerts, etc., do not park a vehicle near any streams, rivers, or flash flood areas.
11. If caught outdoors, climb to a high ground and stay there.
12. Do not walk through or drink flood water.
13. If told to evacuate, do so immediately.
14. DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by California University Police.

XII. Tornado (EOP Section 3.13)
If a tornado is reported within a 15 mile radius of California, a Cal U Alert text message will be issued by the University to registered students, staff and faculty.
The best protection is an underground shelter or basement, or a substantial steel-framed or reinforced concrete building. (If none are available, take refuge in other parts as indicated below.)
1. In any facility always go to the lowest floor possible.
2. If your residence has no basement, take cover under heavy furniture on the ground floor in the center of the building, or in a small room on the ground floor that is away from outside walls and windows.
3. Stay away from windows to avoid flying debris.
4. If you are outside in open country, drive away from the tornado's path, at a right angle to it. If there isn't time to do this – or if you are walking – take cover and lie flat in the nearest depression, such as a ditch, culvert, excavation, or ravine.
5. If the school building is a good steel framed or a reinforced concrete building, stay inside away from the windows and remain near an inside wall on the lower floors, if possible. The large brick buildings on the Cal U campus are of reinforced construction and should provide adequate shelter. If in a smaller facility go to the basement or nearest brick facility.
6. Avoid auditoriums and gymnasiums or large metal buildings with large, poorly supported roofs.
7. Office buildings – go to an interior hallway on the lowest floor or to a designated shelter area. Stay away from windows.
8. Many times, restrooms in lower levels are safety shelters in buildings.

XIII. Inclement Weather (EOP Section 3.14)
The University President, or his designee, is solely responsible for authorizing the closing of the University when severe weather and/or emergency conditions warrant either a partial or full day closing.

1. When road and sidewalk conditions become hazardous due to severe weather condition, the California University Police Dispatcher shall call out Physical Plant Grounds Crew and notify both the Director of California University Police and the Director of Physical Plant.
2. The Director of California University Police shall notify the Vice President for Administration and Finance of weather and road conditions surrounding the University. The Vice President for Administration and Finance recommends a course of action to the President.
3. Once the decision to close or delay is made, the President, or his designee, notifies the Vice Presidents who in turn activate their respective plans for notification of personnel in their respective areas. Essential employees shall be advised of their status and when to report to work. Non-essential personnel will be instructed not to report to work.
4. Under the direction of the Vice President for University Advancement, the Public Affairs Office will notify both radio and television media of the full-day closing or delayed opening.
   • As a minimum, the following media shall air the closing information: both the University radio and television stations, radio stations WASP, WESA, and KDKA, and television stations KDKA, WTAE, and WPXI. California University Police will revise the message tape on the switchboard answering machine with up-to-date information. Employees may call the University's toll-free number 800-422-5639 for closing information.
5. All employees are advised to evaluate road conditions in their respective areas to determine if roads are passable.
6. The university will be closed when the Governor declares a state-wide State of Emergency.

XIV. Medical Emergency (EOP Section 3.15)

1. If serious injury or illness occurs on campus, immediately dial ext. 4299 or (724) 938-4299. Give your name, describe the nature and severity of the medical problem, and give the campus location of the victim.
2. In case of minor injury or illness report to the Wellness Center for evaluation.
3. In case of serious injury or illness, ONLY certified or appropriately trained personnel should quickly perform the following steps:
   1. Keep the victim still and comfortable. DO NOT MOVE THE VICTIM.
   2. Ask the victim, "Are you okay?" and "What is wrong?"
   3. Check victim's breathing and begin artificial respiration, if necessary. Send someone to get help.
   4. Control serious bleeding by direct pressure on the wound.
   5. Continue to assist the victim until help arrives.
   6. Look for emergency medical ID.
   7. Give all information to the medical response team.

XV. Psychological Emergency (EOP Section 3.16)
A psychological crisis exists when an individual is threatening harm to himself/herself or to others, or is out of touch with reality due to severe drug reactions or a psychotic break. A psychotic break may be manifested by hallucinations, uncontrollable behavior, etc.

1. Never try to handle a situation you believe is dangerous without appropriately trained assistance.
2. Notify Office of California University Police of the situation at ext. 4299 or (724) 938-4299 on a cell phone.
3. When contacting the Office of California University Police state the following:
   • Clearly state that you need IMMEDIATE ASSISTANCE.
   • Give your name.
   • Your location.
   • A brief description of the situation.

XVI. Student Death, Serious Injury or Illness (EOP Section 3.17)
In the event of a death, serious injury, or illness to a student the following guidelines should be implemented to initiate an effective response and/or course of action on the part of the university.

1. The individual making the discovery of a student who is seriously injured, ill or dead should immediately contact the Office of California University Police at ext. 4299 or (724) 938-4299 and the University Health Center at ext 4232 or (724) 938-4232.
2. The Vice President for Student Affairs will be notified by any University representative who becomes aware of the death, serious injury, or illness of a student.
3. The Vice President for Student Affairs will:
   • Inform the University President, the Provost, and Vice President for Academic Affairs, and the Director of Public Affairs.
   • Assemble a crisis management team to assist in handling the situation.
   • Attempt to provide appropriate notification of the situation to the family.

XVII. Utility Failure (EOP Section 3.19)
In the event of a utility failure, you should do the following:

1. During regular working hours (8:00 a.m. through 4:00 p.m., Monday through Friday), immediately notify the Physical Plant Department at ext. 4409 or (724) 938-4409.
2. If there is potential danger to building occupants, or if the utility failure occurs after hours, weekends, or holidays, notify California University Police at ext. 4299 or (724) 938-4299.
3. If an emergency exists, evacuate the building.
4. DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by California University Police.

**Elevator Failure**
If you are trapped in the elevator, use the emergency call or phone button in the elevator to alert others that you are trapped. If you hear or observe someone trapped in an elevator, immediately contact California University Police at ext. 4299 or (724) 938-4299 for help.

** Plumbing Failure/Flooding**
Cease using all electrical equipment. Immediately notify California University Police at ext. 4299 or (724) 938-4299. If necessary, evacuate the area.

**Gas Leak**
Cease all operations and immediately vacate the area. Do not switch lights or any electrical equipment on or off. Extinguish all open flames, including cigarettes. Notify California University Police at ext. 4299 or (724) 938-4299 from a telephone outside the area affected by the gas leak.

**Steam Line Failure**
Immediately notify Physical Plant at ext. 4409 or (724) 938-4409 or California University Police at ext. 4299 or (724) 938-4299, and if necessary, evacuate the area. Keep clear to avoid burns.

**Ventilation Problem**
If smoke odors come from the ventilation system, immediately notify California University Police at ext. 4299 or (724) 938-4299, and, if necessary, cease all operations and vacate the area.

**XVIII. Active Shooter Response Guidelines** (EOP Section 3.20)
This situation is a barricaded suspect(s) or an outdoor movement situation where the suspect(s) is actively discharging a firearm at Public and/or randomly firing into an area where it is reasonably expected that persons could be struck by the suspect(s) fire. These situations leave little or no time for proper planning and normally require first arriving Law Enforcement units to take immediate action to end the danger.

**IF YOU ARE INDOORS AND IN DANGER:**
1. EVACUATE, if you can do so safely. Notify anyone you encounter to leave the building immediately. Evacuate to a safe area away from the danger and take protective cover. Stay there until emergency responders provide instructions.
2. When there is an active shooter, DO NOT activate the fire alarm to evacuate a building.
3. All persons NOT immediately impacted by the situation should take protective cover indoors, staying away from windows and doors. Follow the guidelines listed below.
4. If you cannot safely evacuate the building, the following guidelines are recommended:
   - Go to the nearest room or office.
   - Lock and barricade doors.
   - If the door has no lock and the door opens in, a heavy door wedge can be jammed between the bottom edge of the door and the floor, otherwise look for heavy furniture to barricade the door.

   - Close blinds and stay away from windows.
   - Cover windows, including windows on the door.
   - Turn off radios and computer monitors.
   - Stay calm, quiet, and out of sight.

   - Silence cell phones.
   - Place signs in exterior windows to identify the location of injured persons.
   - Do not open the door- it may be the shooter.
   - Remember, the shooter will usually not stop until they are engaged by an outside force.
   - If you are trapped with the gunman and he is not shooting, DO NOT draw attention to yourself with sudden body movements, statements, comments or hostile looks.

**IF YOU ARE OUTSIDE**
1. If you are outdoors and hear gunfire, stay alert and move away from the gunfire.
2. Look for appropriate cover locations. Brick walls, large trees, retaining walls, parked vehicles and any other object which may stop bullets, should be used as cover.

**CONTACTING THE OFFICE OF CALIFORNIA UNIVERSITY POLICE**
1. Notify the Office of California University Police as soon as it is safe to do so by dialing Ext. 4299 or (724) 938-4299
2. Provide the following information:

ADA/504 COMPLIANCE OFFICE The mission of the ADA/504 Compliance Office is to provide high quality service to students with disabilities by ensuring the university’s compliance with the Americans with Disabilities Act and with Section 504 of the Rehabilitation Act of 1973 (as amended). Options @ Cal U is a group of volunteer peer educators who educate and challenge their peers regarding the decisions they make. The Cal Alcohol and Other Drug Coalition is comprised of members from the university and local communities who combine resources and knowledge in an effort to change the culture regarding the use of alcohol and other drugs. To be a part of either of these programs or for questions regarding AOD prevention at California University of Pennsylvania, contact Donna George, AOD Prevention Specialist at george@calu.edu or 724-938-5515.

ATTENDANCE, CLASS Policy Regular class attendance is a prerequisite to successful class performance. University policy permits class absence for cause but places an obligation for successful completion of course work on the student. Faculty members may establish their particular policies for absences subject to the following university provisions: Class absences are excused for officially sanctioned University activities, where the student’s attendance is mandatory and which have been pre-approved by the appropriate Vice-President or designee. University activities appropriate to be considered an excused absence include, but are not limited to scheduled NCAA athletic events and academic competitions in which the student is a mandatory participant. Other appropriate situations include military duties, auto accidents, impassable roads, death in the immediate family, and/or medical emergencies. Verification of such absences may be required by the instructor.

Procedure(s): The student must, in all cases, arrange to make up examinations or other work missed because of absence, according to terms and a schedule agreeable to the professors. Except in cases of emergency, it is the students’ responsibility to inform professors of the cause of any absence in
advance. Students should notify the Dean of Students concerning lengthy absences due to illness or other causes, and appropriate documentation is required in such cases. The Dean will in turn notify the professors concerned. The Health Center does not issue medical excuses. Under certain circumstances the Health Center will notify professors about students' absences (or other failure to fulfill academic obligations) due to medical conditions; on the basis of this notification, individual professors in turn will determine whether or not to excuse the absences.

The main goals are to reduce student use of marijuana and educate about marijuana-related issues, including tips for quitting. Participation in BASICS and/or Being Blunt is open to any Cal U student, while those who have been cited by the University Judicial Officer for violations of the Student Code of Conduct involving the use of alcohol and other drugs are required to participate.

Students who express and/or demonstrate greater difficulty in coping with alcohol or other drug use/abuse are referred to the Cal U Counseling Center to consult with an alcohol and other drug certified counselor. Students may also schedule a voluntary appointment to speak with the alcohol and other drug certified counselor. Please note that alcohol and other drug certified counselor may refer a student to an outside alcohol and other drug treatment agency as Cal U does not maintain a treatment facility. MEDICAL ABSENCES Students who are unable to attend classes because of illness should contact their professors, explain their absences, and arrange for completion of any work that may have been missed. The Student Wellness Center does issue confinement slips to students to give to their professors when the student visits the Student Wellness Center and consults with a RN/physician or SRNP who determines if the student has significant medical reason not to attend class. A confinement slip is given to students who have been absent from class for less than three days. If the student has consulted a private physician who has determined that the student had significant reason not to attend class, the student must have an excuse provided by the physician to give to their professors or have the physician's office fax the Student Wellness Center an excuse so that a confinement slip can be issued to the student. If the student has missed more than three days of class due to an illness or surgery, the Student Wellness Center will send written excuses to the student's professors. The notification of illness only notifies professors of the student's absence from class. Each professor has his or her own attendance policy about excused or not excused absence.

A professor may call the nurse supervisor of the Student Wellness Center for verification of a student’s visit, but a visit can be verified only if a student was actually seen by a health professional.

NONDISCRIMINATION STATEMENT California University of Pennsylvania is committed to creating and maintaining an environment that is free of unlawful discrimination. California University of Pennsylvania is an equal opportunity employer. Unlawful discrimination is a sufficient basis for the imposition of discipline and, depending on the nature of the offense, discipline will range from verbal warnings to termination for employees. Students will be subjected to discipline via the Student Code of Conduct process. Further, when acts of discrimination are sufficiently pervasive or so severe that they unreasonably interfere with an individual’s performance and/or create an intimidating, hostile, and/or offensive working or learning environment, substantial disciplinary action is warranted.

The prohibition of discrimination applies to all current California University of Pennsylvania students, employees and applicants as well as individuals who have a contractual relationship to California University of Pennsylvania, including, but not limited to, vendors and contractors. California University of Pennsylvania does not discriminate or permit discrimination by any member of its community against any individual on the basis of race, color, religion, ethnicity, national origin, gender, age, disability or veteran status in matters of employment or academics.

Harassing behavior that is based on any of these protected characteristics is discriminatory. This includes harassing conduct affecting tangible job benefits, interfering unreasonably with an individual’s work or academic performance or creating what a reasonable person would sense is an intimidating, hostile or offensive environment. While California University of Pennsylvania is committed to the principles of free inquiry and free expressions, discrimination and harassment identified in this policy are neither legally protected expression nor the proper exercise of academic freedom.

The caller must reasonably believe he or she was the first person to call for emergency services, provide his or her name and stay with the person in trouble until help arrives.

Placement Testing and Developmental Courses

At California University student success is the priority. Ensuring that students are scheduled in classes of sufficient but not excessive challenge is a key to academic success. All new freshmen (students attending a post-secondary institution for the first time) and some transfer students have the opportunity to take placement tests before their first registration at California University to determine their levels of ability in mathematics and writing.

Students who do not achieve predetermined scores on these tests must enroll in appropriate developmental courses. These courses, ENG 100 English Language Skills, and DMA 002, Introductory Algebra, are described in the course listings in the University Catalog. Because these developmental courses are preparatory to a university academic experience, the credits awarded in them do not count toward the fulfillment of the number of credits for graduation, nor may they be used in fulfillment of General Education requirements. However, the grades achieved in these courses are used in establishing a student’s grade point average, class standing, eligibility for financial aid, and eligibility for participation in co-
curricular activities. Moreover, students who do well in preparatory courses also do well in college-level classes. Remember, student success is our priority.

PROPERTY INSURANCE The University does not insure student personal possessions. The University cannot replace any property loss due to theft, fire, water, etc. Therefore, the student whose family does not have a homeowner's insurance policy with a student provision may wish to purchase a policy that offers this protection.

UNDECIDED ABOUT YOUR MAJOR? As an undecided student you are one of many students who have taken a period of time to explore your options before choosing a major program of study. II. JURISDICTION

The President of California University of Pennsylvania, with the approval of the Council of Trustees, is authorized under Act 188 - which created the Pennsylvania State System of Higher Education of which this University is a part - to create rules of student conduct. These rules and procedures
apply to all students and are applicable to behavior occurring both on and off university property. All recognized student organizations are expected to abide by the same regulations as individual students.

This Student Code of Conduct supersedes all previous versions of student codes of conduct and is effective as of August 19, 2013 (pending final approval). The Vice President for Student Affairs or designee is responsible for implementing and managing the Student Conduct System including interpreting any ambiguities or decide any questions about the application of this code.

The conduct process is an administrative function of the university and is separate and independent from all legal proceedings. Students are expected to obey all local, state and federal laws. Both university disciplinary and legal proceedings may be used to address actions that violate both university policy and any law. The university does not waive taking disciplinary action due to criminal or civil proceedings or view disciplinary action as a substitute for legal proceedings.

Specific rules for the use of university resources or participation in university functions may be developed in addition to this code of conduct. These rules, such as the Residence Life Rules and Regulations and the Greek Life Guidelines, may be dealt with by the offices in charge of the resources or functions or referred to the Office of Student Conduct as deemed appropriate by the university based on the nature of the action.

C. Treating Others Fairly would require one NOT engage in the following:

1. Sexual Harassment is a form of sex discrimination and the University is obligated to address unwelcome actions and behaviors by a student toward another student or other person based on sex that is sufficiently severe or persistent so as to interfere with that student’s ability to participate in or benefit from the University’s programs.

2. Harassing behavior, meaning repeated, severe or pervasive actions directed toward specific individual(s) with the intent to harass or alarm including actual, attempted or threatened physical contact, and/or acts that serve no legitimate purpose.

3. Disrupting behavior, meaning conduct that is substantially disorderly, unnecessarily disruptive to others, and/or disruptive to the normal practices, processes and functions of the university or local municipalities. This includes actions which prevent activities - such as teaching, research, administration - from continuing and/or repeated disruptions after being asked to refrain; using technology, without appropriate prior notice or consent, to create, display or distribute an audio, video or digital file or image of people, places or things where the location reflected is a place where a person would have a reasonable expectation of privacy (such as bedrooms, restrooms, or locker rooms); interfering with entry into or exit from buildings, offices or other areas requiring free movement of people.

4. Interfering with the freedom of any person to express his/her views as long as the expression is within legal limits.

5. Conduct that constitutes unlawful discrimination based on another person’s race, color, religion, ethnicity, national origin, gender, age, disability, veteran status or sexual orientation.

6. Retaliating against any person who initiates a complaint, acts as a witness, assists with, or participates in the conduct process in any way. Retaliating behaviors include, but are not limited to, actions meant to interfere with another's participation in the conduct process or threaten after the fact due to such participation.

IV. PROCEDURES

A. Referrals

1. Making a Referral

   Any member of the University community, guest, visitor or other interested party may make a report of an alleged violation of university rules against a student. Complaints must be in writing and submitted to the Office of Student Conduct within a reasonable amount of time from the incident. This deadline may be extended up to one calendar year by the Vice President for Student Affairs or designee based on unique circumstances.

   Referrals will be forwarded to the appropriate hearing officer to review the report to determine if a violation of university rules was likely to have occurred based on the report. If so, the hearing officer will determine specific charges and initiate the conduct process.
If a complainant decides not to participate in conduct proceedings or have his/her name released after filing the initial report, the university may continue investigating the allegation and may continue the conduct process. If no other witnesses or information are available to support a complaint, the report will be maintained and no action will be taken.

2. Organizations

Recognized student organizations have the same rights and responsibilities as individual students. A complaint may be viewed as the action of any organization if a significant number of students involved belong to an organization, planning and leadership for an action came from organization members or if an organization authorized or funded the action. The officers will act on behalf of the organization in conduct proceedings with the same participation rights and privileges as individual students outlines.

3. Investigation

Complaints will be forwarded to a designated hearing officer to review. If the hearing officer believes sufficient evidence exists to support the complaint, an investigation will be conducted. The scope of the investigation will be determined by the nature and complexity of the complaint. The referred student will be called in for a preliminary meeting by the hearing officer once sufficient information has been gathered. The hearing officer will share the complaint and any other pertinent information at the preliminary meeting with the student and allow the student to respond.

4. Withdrawals

If a student withdraws from the university prior to completion of the conduct process through either hearing option, the process may be restarted at, or as a condition for, re-enrollment at the discretion of the Associate Dean for Student Conduct. A registration hold will be placed on the student’s account until the process is restarted or completed.

5. Limited Immunity

A student who admits to the code violations of Irresponsible Alcohol Use or Misuse of Drugs in the course of reporting the occurrence of physical assault, sexual misconduct, dating violence, domestic violence, stalking or endangering behavior may be entitled to immunity for those code violations whether reporting as a victim, witness or Samaritan. Limited immunity may be given to students admitting to other violations in these circumstances at the sole discretion of the Associate Dean for Student Conduct. The university may follow up on such admissions in an informal manner.

6. Alternative Dispute Resolution Options

Alternative resolution options - such as mediation, restorative justice conferencing, and other processes - may be available in certain situations. These options can be requested by any directly-involved party or suggested by a hearing officer. These options may be used to avoid escalation of minor conflicts or in place of the conduct process in certain situations with the agreement of all involved parties and the Associate Dean’s approval. If an agreement is not reached, the case will be referred back for adjudication. This option is not intended for use where significant incidents of violence or sexual misconduct have occurred and is not available where a student has been interimly suspended, or where there is a pending criminal or civil action arising out of the facts and circumstances of the code violations. Use in such circumstances requires the consent of the Vice President of Student Affairs.

B. Hearing Options

Students accused of violating university rules may request either an administrative or University Conduct Board hearing. The University reserves the right and may in its sole discretion determine whether an administrative hearing may be held. Administrative hearings are not intended to adjudicate conduct code violations that involve serious allegations of misconduct that affected other students significantly. In other words, while a student is entitled to request a board hearing and is not required to consent to an administrative remedy, a student is not entitled to an administrative hearing in all cases.

1. Administrative Hearing

This hearing option allows a resolution of the complaint between the referred student and a designated hearing officer, usually during the preliminary meeting. In this option, the student accepts the determination of responsibility for violations and the sanctions offered by the hearing officer, allowing the complaint to be resolved. No recording or transcript of these proceedings will be created or maintained. The student waives the right to a University Conduct Board hearing and the ability to appeal in accepting the hearing officer’s decision.

2. Conduct Board Hearing

If a student and hearing officer are unable to agree on whether the student is responsible for violating university rules or what sanctions are appropriate or if a student requests a board hearing, the Office of Student Conduct will convene a conduct board hearing. The University Conduct Board will operate to adjudicate violations of the Student Code of Conduct. The University Conduct Board will be composed of student, faculty and staff representatives and a minimum of one representative from each area will sit on any given hearing board. The Associate Dean for Student Conduct will act as advisor and normally chair board meetings. Chair responsibilities will be delegated to a designated board member in cases where the Associate Dean has conducted the investigation or otherwise has a conflict of interest. Faculty and staff representatives will be appointed by the President while student members will be appointed by the Vice-President for Student Affairs. All terms will be for one year with reappointments possible. The University Conduct Board will consist of eight (8) members plus the chair as a non-voting member except in cases of tie votes. A minimum of four (4) members plus the chair are required to establish quorum for a hearing.

C. Board Hearing Procedures

University Conduct Board hearings shall be conducted in a fair and impartial manner. Strict rules of evidence will not apply since conduct proceedings are administrative in nature. All board hearings will be recorded on audiotape or other reliable means at the discretion of the Associate Dean for Student Conduct. This recording (or other reliable means) will be the sole and official record of the hearing and will be maintained in the Office of Student Affairs until after all appeal procedures are exhausted. The University Conduct Board will follow the suggested order below. Other conduct boards established for adjudicating violations of specific rules (such as Residence Life and Greek Life) will follow similar procedures.

1. Introductions
2. Introduction of charges and student’s response of responsible, not responsible or no plea.
3. Information in support of charges by complainant or department filing the complaint including statements of witnesses.
4. Information in support of the referred student including statements of witness.
5. Private deliberation of the board members to determine responsibility for violations and sanctions if appropriate. Such determination will be by majority vote. The Chair does not vote.
D. Conduct Policies

- Complaints will be assigned to a designated hearing officer to investigate. Following an investigation, a preliminary meeting will be held with the referred student to review the complaint and other information gathered. During the preliminary meeting, the student may normally be allowed to request an administrative or board hearing.
- If a student fails to attend a preliminary meeting after reasonable attempts by the university to provide notification, the university reserves the right to adjudicate the complaint based on the information available through an administrative hearing.
- If a student fails to appear for a scheduled hearing without providing notice, the hearing officer or conduct board may precede in his/her absence. Only information then available will be considered in determining responsibility and sanctions. Failure to participate will not be used to determine responsibility for a violation by itself and will not be grounds for an appeal.
- Referred students and complainants shall be provided written notification of the time, place and date of a board hearing at least three (3) calendar days in advance following a preliminary meeting. The notice shall include the charges to be adjudicated and other pertinent information about the hearing. The student can request a postponement of the hearing which will be reviewed and decided on by the Associate Dean for Student Conduct.
- Referred students and complainants have the right to an advisor of his/her choice present at an administrative or board hearing. An advisor may provide support and advice but not actively participate in a hearing. Attorneys may act as advisors, but may not argue a case or attempt to introduce legal procedures.
- Confidentiality - Hearings, both administrative and board, will be closed to the public. All participants are expected to provide honest answers, follow established procedures and maintain confidentiality. The University reserves the right to determine which individuals may attend hearings based on their involvement with the incident. The University will only release information regarding the conduct proceeding as outlined in Subsection E below or that it is required to release by law.
- Prospective witnesses, other than the complainant and referred student, may at the discretion of the chair be excluded from a board hearing during statements by other participants.
- Oral and/or written statements may be considered at the discretion of the chair or hearing officer and will be weighed as deemed appropriate by the hearing authority. Referred students and complainants are responsible for ensuring witnesses or documents are available at the time of the hearing. Witnesses are voluntary participants and will not be compelled to make statements or provide information by others involved in the conduct process.
- Referred students and complainants will be afforded an opportunity to have and respond to all information presented including asking relevant questions of each other and witnesses. The chair will have discretion to decide relevance of questions.
- Referred students and complainants may request the removal of any board member they feel may be biased against them. Removal for bias will be at the chair’s discretion. Board members with a conflict of interest or bias may excuse him/herself from a hearing. A hearing officer may request a case be assigned to another hearing officer due to a conflict of interest.
- Hearings will be conducted in a civil manner with any participant disrupting the conduct process being excluded from the remainder of the meeting. The chair is responsible for ensuring civility during a hearing.
- Pending resolution of a complaint, student status may only be altered to protect university interests and/or the safety and security of individual members of the university community. Such actions may include interim suspensions, restriction of privileges including access to certain areas of campus and no contact directives. The Associate Dean for Student Conduct is responsible for determining if such actions are necessary and implementation.
- Determination of responsibility for violating any university rules will be based on the standard of preponderance of the evidence in both administrative and board hearings.
- Conduct records, including reports of violations and official correspondence, will be maintained minimally for a period of two (2) years from graduation or separation of a student from the university, except for suspension or expulsions. Records from cases involving suspension or expulsion will be kept indefinitely. Conduct records will be housed in the Office of the Vice President for Student Affairs.

E. Notification

Written notification of the outcome of a hearing including the reasons for the decision, findings of fact and an explanation of the sanctions will be sent within a reasonable timeframe from the conclusion of the conduct proceedings by either the hearing officer or the chair of a conduct board. Written notification of the outcome of a proceeding that adjudicates allegations of sexual misconduct, dating/intimate partner violence, domestic violence, stalking or other violent acts will be provided to both the complainant and the referred student simultaneously. Other notifications may be sent in order for the University to comply with applicable victim notification laws for reporting the results of disciplinary proceedings. Parents or guardians will be notified of violations of the university’s drug and/or alcohol policies as outlined in Section III above. Notification will be coordinated by the Associate Dean for Student Conduct following completion of conduct proceedings, including the time period allowed for appeals. Students may request an exception from notification to the Associate Dean for extenuating circumstances.

V. SANCTIONS

The following sanctions comprise a range of official action that may be imposed for violation of regulations by individuals or groups. One or more sanctions may be imposed at the discretion of the hearing officer or board in an effort to promote behavioral change. This list does not limit the actions available to a hearing officer or board and is not inclusive of all possible actions that could be taken as a result of a violation of university policy. Students found responsible for violations will receive a minimum of disciplinary warning with expulsion being the maximum sanction. Sanctions attempt to teach alternative behaviors; increase personal and social skills; increase a student’s awareness of obligations to others; demonstrate implications of actions; and explain rationale behind regulations. However, when a determination is made by either a court of law or through University disciplinary process that a student has sexually assaulted another student or has engaged in stalking or domestic/intimate partner or dating violence, the University may impose sanctions and take additional measures to protect students such as University housing or class accommodations, no contact directives, bans from campus and suspension or expulsion.
Disciplinary Warning. This action is taken when the individual’s conduct or involvement merits an official admonishment that can be either verbal or written. The student is warned that further misconduct may result in more severe disciplinary action. A disciplinary warning is intended to promote reflection on the decisions and behavior leading up to a violation and promotes an increased awareness of the university’s behavioral expectations.

Disciplinary Probation. This action is designed to assist students in developing behavior appropriate to the university community through placing them on a warning status. There are three types of probation listed below which may be imposed depending on the type and severity of the violation.

1. Residence Hall Probation - A change in student status for violating Residence Life Rules and Regulations involving written notice of the probation, its terms, and time limit as established by the Hearing Officer or Residence Life Conduct Board. Privileges of residents, including visitation, may be revoked for all or part of the time the resident is on probation. The resident is also informed that further violations may result in greater levels of sanctions. This level of probation is intended to provide the student an opportunity to reflect on and learn from their behavior while increasing their awareness of the impact of their behavior on themselves and others and of the university's behavioral expectations. The importance of making mature decisions is stressed while a student is on probation.

2. University Probation Level I – A change in student status involving written notice of the probation, its terms, and time limit as established by the Hearing Officer or University Conduct Board. The student is notified that further infractions of any University regulation may result in more stringent restrictions being placed on his/her actions. This level of probation is intended to provide the student an opportunity to reflect on and learn from their behavior while increasing their awareness of the impact of their behavior on themselves and others and of the university’s behavioral expectations. The importance of making mature decisions is stressed while a student is on probation.

3. University Probation Level II - The most serious level of conduct sanction short of suspension from the University during which the student is considered not in good standing. The student remains enrolled at the University under circumstances defined by Hearing Officer or University Conduct Board and may not represent the University in any official capacity or hold office in any student organizations including, but not limited to, varsity or non-varsity intercollegiate athletic events or teams, recognized student organizations, theater groups or productions, musical organizations, or SAI Senator or Officer positions. This probation level indicates to the student that further violation(s) of University regulations will result in more stringent conduct action, including but not limited to suspension or expulsion from the University. This level of probation is intended to promote reflection on the student’s behavior and decisions while stressing making mature decisions, engaging in critical thinking and developing more appropriate behavior as a member of the university community.

Behavior Contract. A student and hearing officer may reach a written agreement concerning expectations for future behavior and decisions to assist in preventing inappropriate behavior from recurring.

Residence Hall Reassignment or Removal. This action is an involuntary reassignment to another hall or removal from on-campus housing altogether for a designated period of time and may include restricted visitation privileges. Usually, a student is given forty-eight hours to remove all belongings from an assigned space and reimbursement of room charges will be based on the official university refund schedule for removals. This sanction is imposed to protect the welfare of a residence hall or floor community and students having this sanction imposed should reflect on the decisions and behavior leading up to a violation and promotes an increased awareness of the university’s behavioral expectations. The importance of making mature decisions is stressed while a student is on probation.

Restitution Fines. This action consists of an effort to assist students in developing an awareness of the responsibilities that go along with privileges and increase an awareness of appropriate behavior and how decisions impact themselves and others. Under this sanction, student may be restricted from entering certain buildings, attending certain events or using specific programs due to their behavior. Residence hall students may have their visitation privileges restricted or revoked for a certain time period or specific guests may not be allowed into a residence hall. Participation in university organizations or holding office in organizations or other privileges can also be included under this sanction as deemed appropriate by the hearing officer or board based on the incident.

No ContactDirective. This action is implemented at the discretion of a hearing officer directing a student to avoid initiating contact with another member of the university community and may include limiting access to areas to avoid incidental contact. A no contact directive may be imposed at a student's request without conducting proceedings if it does not involve any accommodation changes. Contact includes direct interactions in person or through technology as well as the use of third parties to interact.

Suspension of Group Recognition. This action consists of the withdrawal of all or part of the official recognition of a group for a stated period of time and will include conditions for reinstatement of recognition. This sanction is intended to assist groups in developing a stronger sense of the responsibilities which go along with the privileges of university recognition and a commitment to be a positive part of the university community.

Revocation of Group Recognition. This action is permanent cancellation of the official University recognition and privileges of a group found in violation of University regulations.

Restitution Fines. A student of organization may be required to make payment to the University or to another specified person(s) or group(s) for damages incurred as a result of a violation of behavioral expectations. Restitution fines may be imposed by the University in addition to any other sanction to promote responsibility for actions and an awareness of the consequences for behavior.

Restitution Service. As part of the sanctioning process, students can be required to perform service to assist in developing increased awareness of the impact of their decisions and strengthen critical thinking abilities to identify appropriate behavior. These services can include performing assigned duties, sponsoring programs, etc.

Educational Activity. A student or organization may be required to complete an educational activity or project relating to the violation to assist in their developing increased awareness of the impact of their decisions, strengthen critical thinking abilities to identify appropriate behavior and an increased sense of responsibility, integrity and civility.

Conduct Referrals. Hearing officers may refer students found responsible for violations to campus resources to assist, educate or monitor them in the development of appropriate behavior, critical thinking skills, mature decision-making skills, etc. These referrals are mandatory and failure to complete a referral could result in additional conduct action. Referrals may include the campus alcohol & drug education programs, the Counseling Center, etc., and could include drug testing for violations related to drug use.

Registration Hold. A hold may be placed on a student's registration if the student has failed to complete a sanction or withdrawals prior to official conduct on an allegation. Holds are intended to be temporary until either the sanction or conduct process is complete. Registration holds may also be used during periods of interim suspension, suspension or expulsion.

Interim suspension. The President or his/her designee may suspend a student for an interim period pending full conduct proceedings whenever there is evidence that the continued presence of the student at the University poses a substantial threat to the safety and/or well-being of any student of the university community or university or private property. An interim suspension may be effective immediately without prior notice; however the decision may be appealed to either the Associate Dean for Student Conduct, Associate Vice President or Vice President for Student Affairs and will be handled as outlined in the Appeal Procedures except that the time lines will not apply. The student shall be given an opportunity to appear personally before a hearing officer or board within 10 class days from the effective date of the interim suspension unless extenuating circumstances warrant an
extension, in which case a hearing will be provided at the earliest possible date. Both the student(s) and the university must agree to an extension that may be left open ended. By agreeing to an extension, the student accepts the decision of interim suspension and any conditions imposed as part of it. During an interim suspension, the student will be barred from all or part of the University’s premises, as designated by the hearing officer. A student under interim suspension who returns to the portion of campus from which s/he was barred without permission from the Vice President for Student Affairs will be subject to dismissal and/or arrest for trespassing.

**Suspension.** This action is an involuntary separation of a student from the University for a designated period of time after which s/he is eligible to return. The Associate Dean for Student Conduct or Associate Vice President for Student Affairs may establish requirements for reinstatement, which must be fulfilled to his/her satisfaction. The student may not participate in any University sponsored activity and may be barred from University premises during suspension. Reimbursement of university charges or fees for students removed from the university due to conduct action will follow the official refund schedule for withdrawals. This action is designed to protect members of the university community and their property, promote critical thinking and mature decision making skills, self-reflection on behavior and the impact it had on the student and others.

**Expulsion.** This action is one of involuntary and permanent separation from the University. The student will be barred from all University activities and property following expulsion. Reimbursement of university charges or fees for students removed from the university due to conduct action will follow the official refund schedule for withdrawals.

VI. APPEALS

The decision of the University Conduct Board may be appealed by the referred student except where the proceeding involves the adjudication of allegations of sexual misconduct, stalking, dating violence, domestic/intimate partner violence or other violent acts both the referred student and the complainant may appeal. Appeals must be based on at least one of the following reasons to be considered:

1. Procedural errors in the operation of the conduct process substantial enough to have effectively denied the student a fair hearing.
2. Availability of new and significant evidence which was not available at the original hearing in spite of diligent efforts by the student to collect information.
3. Lack of substantial information presented at the hearing to support the decision on responsibility for a violation.
4. Severity of the sanctions does not match the severity of the violation.

Except where the appeal is based on availability of new and significant evidence (See # 2 above), a consideration of an appeal will be based on records and documents on file when the original determination was made. The response to an appeal could be (a) denial of the appeal, (b) granting a new hearing, (c) modification of the sanctions (sanctions may be increased only in case of an appeal by a survivor of a sexual misconduct or other violent act), or (d) reversal or modification of the findings.

Appeals are to be in writing and submitted to the Office of Student Conduct within five (5) class days of receipt of the written notice of the decision. The original determinations of the board will be considered final and conclusive if an appeal is not received within the five day time limit. Appeals from the University Conduct Board will be heard by the Vice President for Student Affairs or his or her designee and, except for the sanction of expulsion, no further appeal may be made. The Office of Student Conduct will notify the student of the response to the appeal within ten (10) work days from the date of the receipt of the appeal. If a new administrative hearing is granted, the student will receive at least two (2) days notice of the time, place and date of the hearing to prepare.

Appeals from the Vice President of Student Affairs or his or her designee of a sanction of expulsion may be made to the University President. Any such appeal must be submitted to the Office of the President within five (5) class days of receipt of written notice of the decision of the Vice President of Student Affairs or his or her designee. The University President shall respond to an accused student in writing regarding the appeal of an expulsion decision within ten (10) class days.

Cal U is committed to providing a substance-free campus. In fact, the University prohibits the possession, use or sale of alcohol and other mind-altering substances on campus. California University of Pennsylvania, as required by the Drug-Free School and Communities Act Amendments of 1989 (Public law 101-226), hereby declares that the unlawful manufacture, possession, use or distribution of illicit drugs and alcohol by students and employees is prohibited at any university activity. Students violating this policy will be subject to the penalties and procedures prescribed in “Statement of Student Rights and Responsibilities: Student Code of Conduct” promulgated in 1998. The caller must reasonably believe he or she was the first person to call for emergency services, provide his or her name and stay with the person in trouble until help arrives.

ALCOHOL AND OTHER DRUG (AOD) PROGRAMS

Cal U’s AOD programs are based within in the Wellness Center (also known as the health center), located on the Ground Floor of Carter Hall. SECTION 3
LIVING@CAL U: THE SUITE LIFE

Living@Cal U offers a variety of options for students, all designed to fit your lifestyle from the first year of college through graduate school. University housing was designed with significant input from students, resulting in facilities and services tailored to your changing needs. Six suite-style residence halls on the lower campus house 1,499 students who are primarily freshmen, but also include a mix of upper-class students to promote community development and sharing campus traditions. Since the first year of college typically involves numerous academic, personal and social transitions, our staff's emphasis is on support and building community so you feel connected to Cal U, adjust to your new home and succeed academically. As you mature and want to branch out on your own to more independent living, our garden style apartment complex, Vulcan Village, is the place for you. Fully-equipped apartments that house 770 students just 1.4 miles from the lower campus give you the increased freedom and independence you're ready for. Staff is still available to assist you, but take a less proactive role as transitional issues have generally been resolved by this time. Because of the emphasis on first-year student support, adjustment and success, the information that follows in this section applies specifically to university housing on the lower campus. Information about living at Vulcan Village is available from the community office (724.938.8990/mgrcalpenn@edtrust.com) as well as in the lease. Questions regarding housing on the lower campus should be directed to the Housing and Residence Life Office at 724.938.4444 or at housing@calu.edu.

THE SUITE LIFE ON THE LOWER CAMPUS

The on-campus residence life program at California University serves your needs as a residential student, and is designed to create a stable living and learning environment based on the university's core values of Integrity, Civility and Responsibility and Bill of Rights and Responsibilities. Here, the halls are more than a place to sleep; they are a learning experience because you will be living and interacting closely with a wide variety of students. This interaction helps to dispel myths and stereotypes about people and their backgrounds.

The university has six co-ed residence halls, all of which are completely smoke free and are made up of suites in various configurations. Fully air-conditioned and carpeted, the Suite Life provides the most popular amenities students requested during construction planning. Each residence hall has a computer lab, community room, TV area with large screen TV, a kitchen, vending and recycling area, full CalCard use and digital video cameras. Each floor also has lounge and study rooms, and a laundry room, while each suite provides free cable TV and high-speed internet connection. Telephone service is activated upon request and charges may apply. There are many opportunities for student governance, including Hall Council, Inter-Residence Hall Council, and Residence Life Conduct Board.

If you take advantage of the full experience offered by residence hall living, you will learn about yourself as you gain hands-on experience in applying what you learn in class, develop your communication and leadership skills, and create life-long friendships.

Each student accepted into the residence halls is assigned a space. However, this space remains the property of the university and regulations apply for its use. These regulations are discussed later in this section, and you are expected to abide by them. Throughout the year, student committees and the university may publish additional rules. Failure to abide by set regulations may result in disciplinary action. If your behavior indicates that you are not suitable for the residence hall environment, the university has the authority to take possession of a given space at any time, without refunding fees.

University Core Values in Residence Life

The Department of Residence Life supports the university's core values of Integrity, Civility and Responsibility. You are expected to act consistently with these values by treating other residents, staff members, and guests with civility; accepting responsibility for your actions, as well as those of your guests; and acting with integrity when making decisions. Using these values as a basis for behavior means taking others' needs and comfort into consideration, realizing how your actions can affect others, and respecting the opinions, attitudes and decisions of others. We aspire to create residence hall communities that consist of residents who respect and attempt to live by these values.

Expectations for Learning in Residence Life

Residence Life is committed to creating and enhancing learning opportunities, particularly by helping you make connections between what you learn in the classroom and what you learn in the residence halls and through co-curricular activities. Residence hall services and activities are structured to have an impact in the areas of values, morals and ethics; purpose and vocational competence; self-awareness; interpersonal development; physical development; preparation for lifelong learning and leadership and citizenship.

Housing Availability and Contract

Housing on campus is not guaranteed for everyone. A majority of on-campus spaces are reserved for incoming first-year students, who are assigned on a first-come, first-served basis. A percentage of the spaces available are set aside for upperclassmen and when demand exceeds available space, a lottery is held to determine who can contract for on-campus housing. First-year students not selected in the lottery must fulfill the remainder of their four-semester residency requirement at Vulcan Village, as university policy states that all first-time freshmen who continue enrollment are required by the university to reside in university-related housing (either on-campus halls or Vulcan Village) for the first four semesters of their college career. Transfer students who matriculate to the university must reside at Vulcan Village or at another location off campus. The housing contract is binding and includes both the fall and spring semesters of an academic year.

Your Suite

As you move in and begin to personalize your suite, it takes on your character and becomes your home away from home. Standard suites are equipped with desks, chairs, extra long twin size mattresses, dressers, closets, telephone jack, basic TV cable service, computer jacks, carpeting, air conditioning and window treatments. Bathrooms include a counter with sink, toilet, shower and shelves. Suites with expanded living areas add living room furniture including a sofa, arm chairs, coffee table, bookcase and TV stand. You provide the rest.

When you move in, you and your roommate(s) must review and sign a room condition report. The condition and contents of your suite must be the same at the end of the semester. If there are any damages, you and your roommate(s) will assume financial responsibility for the repairs. Although we encourage you to personalize your space, all furniture must stay in the suite and no permanent changes to the area are allowed.
You are strongly encouraged to purchase renter’s insurance or determine if you are covered under your parents’ or guardian’s homeowners policy. The university is not liable for any claims for personal or property damage. You and/or your roommate(s) will be held liable for all damages arising from accidental or purposeful discharge of the fire suppression system (sprinklers).

You and your roommate(s) are responsible for general cleaning in your suite, including the bathroom. You must follow university recycling policies in disposing of your trash in the trash room located on each wing. The hall custodial staff is responsible for general cleaning in common areas and for moving trash to the outdoor disposal areas.

Your Key and CalCard
The residence halls are locked 24 hours a day, making your key and CalCard extremely important. You are responsible for both. Your key will open your wing, suite and bedroom doors, computer labs, and the residence hall front door when the CalCard system is deactivated. If you lose your key, report it to the residence hall office or staff member on-call as soon as possible. If you lose your CalCard, report it to the CalCard Office at the Student Center Information Desk, or to California University Police when the Information Desk is closed. You may also be issued a means of identification that you must show to the desk attendant when entering the building to verify your residency. Lock your door at all times and always carry your key and CalCard so you don’t lock yourself out of your suite or hall. There is a significant charge for lost keys due to replacement and/or re-coring expenses, and there is also a charge for lost CalCards.

Your Mail
You will receive a combination for your mailbox. Mail is delivered to the residence halls Monday through Friday when school is in session, with the exclusion of national holidays. Outgoing mail service and stamps are available at the Student Center Information Desk. UPS and FedEx deliveries are made to the campus mailroom and you will have to sign for them there. Correspondence from the university is also sent to your campus mailbox, so you should check your mail regularly.

Your mailing address is:
Your Proper Name
Building and Room Number or Box Number
California University of Pennsylvania
250 University Avenue
California, PA 15419

Your correspondence must include your complete proper name (no nicknames) and the building, room number or box number. If the sender does not include your proper name, room number or box number, we cannot guarantee that you will receive your mail. If you change rooms, you should notify anyone from whom you receive mail.

Over the semester break, first class mail only will be forwarded to the permanent address on record, so please make sure your permanent address is listed correctly with Academic Records and on your online account. If your permanent address changes when you are on campus, you need to notify the Academic Records and Housing Offices and update your online account.

Specialty Housing
Residence Life offers you the opportunity to live in a community of students who share interests or concerns for similar issues. The Housing and Residence Life Office encourages groups of students interested in creating specialty housing around common interests to contact us.

The Honors Program The Honors Program provides an opportunity for an enhanced educational experience. Students admitted into the Honors Program can request to live together in Residence Hall A, which includes the Honors Program Office, a resource/study room, computer lab and classroom for Honors students. This environment allows you to explore and participate in scholarly, professional, and artistic experiences outside the classroom.

Living with a Roommate
Living with another person can be one of the most rewarding and demanding experiences of your time at Cal U. We believe that learning to identify your values, communicate clearly, compromise and problem-solve to build and maintain a respectful, mature relationship with your roommate(s) is one of the most valuable experiences you can have in the residence hall. We will provide you with the tools and coaching to succeed and believe that when conflict inevitably arises, room changes are not the automatic answer. We will help you develop an approach to communicating about problems or mediate a discussion if agreed on by both/all roommates, but our role is not to artificially “solve” a problem by approaching a roommate or arranging for a room change. Becoming a mature person means having the integrity to acknowledge differences and deal with your roommate(s) honestly and openly, accepting responsibility for your actions and role in the relationship, and conducting disagreements in a civil manner.

To help you begin the communication and compromise you will need to build a successful relationship with your roommate(s), your Community Assistant will guide you through the Roommate Agreement packet after the first floor meeting. After reviewing our statement of Roommate Rights and Responsibilities, you will complete a short Roommate Agreement Survey and then work with your roommate(s) to complete a Roommate Agreement that can be renegotiated at any time.

Room changes are made only in extreme cases when all other options have been exhausted and if space is available. The Residence Hall Director must approve all moves before they happen. All housing assignments are made and room changes approved at the discretion of the university through the Resident Directors.

Living in Community
To give you responsibility for creating a community that meets your needs, we operate the residence halls by a community standards model. Beyond the broad parameters of university and residence hall safety and management policies, you and your fellow residents are free to agree upon basic principles that will guide your community. You are responsible with them for determining the social contract that will govern your relationships with one another and for holding one another accountable for adhering to it. The staff person’s role is that of a facilitator who is accountable to Residence Life administrators for ensuring health, safety and minimum behavior standards. He or she facilitates community development by taking a leadership role in terms of communication, programming and acting as a resource person, not by being the person designated to “fix” problems or deal with misbehavior. Your CA will coordinate a meeting early in the semester and facilitate a discussion that will result in a Community Agreement that all residents agree upon. In a healthy and productive community this contract is not a static one, but will continue to evolve as you and your community
learn and mature. Whenever residents find difficulties with the current Agreement, they should call for a floor meeting to discuss the issues and revise the Agreement.

Staff and Services

Residence Hall Directors (RDs) are the university employees responsible for overall supervision of each residence hall. RDs are specialized professionals with a master's degree in a field related to education and student development and live in one of the halls they supervise. Ensuring that your living and learning experience is comfortable, productive and safe is their primary responsibility and includes such things as advising students and student groups, encouraging community development, promoting academic involvement and success, handling hall student conduct issues, supervising student staff and acting as the liaison for facilities issues. Residence hall offices are open from 9:00 a.m. – 5:00 p.m. Monday through Friday, with additional evening hours that vary by semester.

Community Assistants (CAs) are students (either graduate or undergraduate) who live on designated floors in the residence hall, assisting the RD in its overall operation. As leaders and facilitators for their floor communities, CAs dedicate considerable time and effort to developing community within the hall. As resources to you, they will help you understand and comply with university and residence hall rules, work with you to plan programs and activities to meet your needs, and help you make the most of your residence hall and university experience. CAs are available through an on-call system 24 hours a day, with schedules and contact information posted throughout the building.

Graduate level CAs also serve as assistants to the professional RDs. They live in the residence hall and assist the RD with community development, programming, advising hall government, operating the front desk and supervising CAs. As student leaders, they are a resource for you and are available at the hall office as well as the on-call system.

Desk Assistants (DAs) are student employees who work scheduled hours at the front desk of each residence hall. They carry out administrative duties, assure that sign-in and escort procedures are followed, and assist in emergencies and hall evacuations.

Custodians are university employees responsible for the cleanliness and upkeep of all public hall areas such as restrooms, laundry rooms, recreation rooms, lounges, vending areas, offices, hallways, and stairways. You are responsible for cleaning your own suite, including bathrooms, and must follow the university recycling policy by properly disposing of all trash in central recycling areas. We remind you to be considerate of custodians when disposing of trash or using residence hall common areas.

Hall Organizations

Residence Hall Councils exist in each building to promote a positive hall atmosphere, provide activities, work closely with the hall staff, and serve as the voice for residence hall students. Each hall council meets regularly and is composed of officers and residents from each floor. We encourage you to become involved in your hall by attending hall council meetings.

Inter-Residence Hall Council is a group that represents the interests of students who live on the lower campus. With elected officers and funding from the Student Association, Inc. (SAI) the council provides a forum for residence life issues and makes policy recommendations to improve campus living. Its members plan and provide an extensive variety of residence hall activities and services for residents, including its annual tradition of sponsoring a campus spring semi-formal on the Gateway Clipper. All campus residents are urged to take an active part in the Inter-Residence Hall Council.

The Residence Life Conduct Board is a body of residence hall students who assist university officials in the conduct process. The board's function is to sanction and educate fellow residents who have difficulties with or who have violated residence hall rules and regulations. After meeting with their Residence Hall Director concerning violations or problems with policies, residents have the option of accepting the hall director's decision on responsibility and sanction or request a conduct board hearing. The Board will decide appropriate educational measures and sanctions to aid in adjusting to hall living. If you're interested in helping with this process, contact your RD.

Community Safety

Staff and residents share the responsibility for building security. You should report all accidents, incidents, thefts, lost keys, or suspicious individuals to hall staff.

A state-of-the-art fire suppression and smoke detection system ensures prompt response to fire emergencies. When the fire alarm sounds, you must exit the building immediately according to the evacuation plan in each room and assemble where directed by staff. Failure to leave the building will result in fines and/or disciplinary action. You may not reenter the building until told to do so by the fire department, California University Police personnel or the Residence Life staff. Smoke and heat sensors, sprinklers, pull stations, and fire extinguishers are located in each residence hall. Tampering with or activating any fire equipment in the absence of an actual fire will result in disciplinary and possible legal action.

A digital security camera system is used at lobbies, exit doors, and computer lab areas. Recordings may be reviewed by Residence Life staff or California University Police for investigation of alleged Code of Conduct or legal violations, and may be used as evidence.

Use of entrances/exits other than the main one is prohibited except in emergencies. The residence halls are locked at all times. Only residents or staff using their CalCards have unrestricted access. Guests must call a resident for entrance, be signed in and be escorted at all times. It is your responsibility to make sure that the door latches and that unauthorized people do not follow you into the building. Do not let non-residents into the building and do not prop the doors open. Doing so compromises the safety of your entire community.

Always take your key and lock your door when you leave your suite, even for a few minutes, and keep your room locked when sleeping. Do not lend your key to anyone. Your key is for your personal use only, and should not be loaned or given to anyone else.

Your CalCard ID is for your personal use only, and is valid only for the currently enrolled term. Falsification or transfer of the card to anyone else is prohibited. Any person on university premises or in buildings supervised by the university is required to produce identification at the request of a university staff member.

When you enter your residence hall, you are required to swipe or show your CalCard to the front desk attendant. Particularly when you enter the hall in a group, doing so allows you to verify your residence in the hall and confirms that you do not need to be signed in and escorted by a resident.

Residence Hall Rules, Regulations and Policies

As a student, you are a representative of the university and are expected to model our core values of Integrity, Civility and Responsibility and act in accordance with the Rights and Responsibilities. Harassment or uncooperativeness towards staff or other students will result in disciplinary action. If you participate in any disruptive conduct you are subject to legal action by the Commonwealth of Pennsylvania and the local government and to disciplinary action by the university.

In addition to the university Rights and Responsibilities and general behavioral standards applicable across campus (see Student Code of Conduct), the following rules and policies apply in the residence halls in order to maintain a safe environment that promotes education and personal development. Any questions about these items should be directed to a member of the Residence Life staff.
Students alleged to have violated residence hall rules or regulations will meet with their Residence Hall Director concerning possible violations. At this meeting, residents have the option of accepting the hall director's decision on responsibility and sanction or may request a conduct board hearing.

Visitation Policy
Guests are allowed in the residence halls 24 hours a day, subject to these provisions:
- A guest is defined as any individual who does not live in the residence hall they wish to enter.
- Residents may host up to three guests at one time.
- Residents are responsible for the actions of their guests.
- All residence hall guests, regardless of gender, must be signed into and out of the residence hall by the resident they are visiting.
- All residence hall guests, regardless of gender, must be escorted at all times by the resident they are visiting.
- If a reasonable suspicion exists that a code of conduct violation is occurring at that time and the residents refuse to cooperate and open the door, and the exigency of the circumstance is such that time does not exist for obtaining of administrative search authorization or criminal warrant.
- Following the issuance of an administrative search authorization by the Vice President for Student Affairs or designee.

Lockout Policy
You are expected to lock your door and carry your key whenever you leave your suite. As an emergency service, if Community Assistants are available they can access a master key to open your suite. This service is offered as a courtesy only, and you will be charged for lock-out service beyond three requests a year. Access will be given only to the certified resident of a particular suite, or bedroom within a suite. You may be asked to provide your CalCard to verify your identity.

Room Privacy and Search Guidelines
The Department of Residence Life is committed to ensuring the privacy and security of its residents and their belongings. The department, however, reserves the right to enter occupied rooms under certain conditions in order to promote a safe, well-maintained and orderly community. In light of this, the following circumstances must be present and procedures must be followed in order for Residence Life staff members to enter and/or search an occupied room. Entrance by Facilities Management, University Police and other University personnel must adhere to the established, applicable procedure for their department. Third parties not covered below will not be permitted to enter occupied rooms without the residents' permission.

Circumstances appropriate for keying into a suite/room
- Request by a resident of the room who is locked out.
- In order to conduct a health or safety inspection of the room or if reasonable suspicion exists that a hazard is present in the room.
- In order to ensure compliance with required evacuation procedures during a fire alarm or drill or in response to a potential life-threatening situation.
- In response to a nuisance complaint from other residents such as excessive noise, on-going alarm sounding, offensive odors, etc.
- While escorting Facilities Management personnel in order to conduct repairs or to assess potential physical problems.
- In order to ensure compliance with break or semester closing instructions such as unplugging appliances and closing windows.
- In order to ascertain location of resident due to extenuating circumstances such as request by parent or university official who has not been able to locate resident for a period of time.
- If a reasonable suspicion exists that a code of conduct violation is occurring at that time and the residents refuse to cooperate and open the door, and the exigency of the circumstance is such that time does not exist for obtaining of administrative search authorization or criminal warrant.
- Following the issuance of an administrative search authorization by the Vice President for Student Affairs or designee.

Staff members will make every effort to knock, announce themselves and warn that a room is being opened before keying in. A reasonable effort shall be made to have a witness present when a room is keyed into, except where emergency conditions make this inadvisable.

Room Searches
Occupied rooms may be searched only under narrow circumstances, and an effort will be made to enter rooms for extenuating circumstances when at least one resident is available. Banned or illegal items observed in plain view by a staff member while in a room under one of the legitimate reasons above may be used to file an incident report concerning the situation. Staff members may also file incident reports on code violations observed through an open door or if invited into room.

Administrative search authorizations may be issued if there is reasonable suspicion that items in, or actions occurring in, a residence hall room are in violation of the code of conduct. Search authorizations may be requested from the Vice President of Student Affairs or designee on the appropriate form outlining the reasons for the request, names of the proposed searchers and the area to be searched. These authorizations will be valid for a specific period of time indicated on the form and the searches should be conducted with at least one resident present. Searches may be conducted without administrative search authorizations with consent of the residents or if it is believed that the delay in searching to request the authorization would result in the items being removed or the actions are being stopped. Any violations found during an appropriate search may be used, without limitation, in university conduct proceedings or in providing information to University Police to obtain a search warrant.
Residence Life personnel follow these guidelines when they are asked for directory information:

Directory Information Policy

Directory information is defined as home address, residence hall, room number, and residence hall telephone number. This information will be given out only in response to specific requests (i.e., asking for a specific person’s address, room number, or telephone number).

You have the right to request that directory information not be released to non-university personnel. This request may be made at any time, and should be directed to the Residence Hall Director. In addition, phone numbers or rooms, depending on availability, may be changed to avoid problems arising from information being given out.

Residency Period and Breaks

The residence halls close at times when classes are not in session, including Thanksgiving, winter, spring and Easter breaks. You must check out of the residence hall during these periods. Requests for exceptions for students participating in sanctioned university events or international students must be made to the Residence Hall Director before the break begins. Details and deadlines will be included on the break posting. There will be a daily charge to anyone granted permission to stay in the residence hall during times it is officially closed.

There is a finals week at the end of each semester, and you are required to vacate the residence hall after completing your last exam.

Residency Appeal Process

The university housing policy requires first-time freshmen to live in university-related housing (either on lower campus or at Vulcan Village) for the first four semesters at Cal U. You must complete a housing contract for lower campus housing or a lease for Vulcan Village to be placed at either location to fulfill the policy requirement. Both of these agreements commit you financially for a specified time period. Any request for exemption from the housing policy or to break the lower campus housing contract must be submitted to the Housing and Residence Life Office, where it will be considered on an individual basis. Unless you receive written approval for exemption from the residency requirement and/or release from the housing contract, you will be held financially responsible for all charges. The request and appeal process is:

Stage One Appeal

Appeals filed with the Associate Dean within 5 days of the original notification will be heard by the Housing Contract Review Board. The Board will reevaluate the Associate Dean’s recommendation and inform you in writing of their decision. If they deny your request, you have the right to appeal the decision and have your request heard by the Vice President for Student Affairs or his/her designee. If you do not appeal within 5 days, the decision is final.

Stage Two Appeal

The Vice President for Student Affairs (or designee) will review all previous recommendations and inform you of his/her decision in writing. The decision of the Vice President for Student Affairs is final.

Room Inspections

Residence Life staff will conduct periodic inspections of suites and bedrooms to ensure compliance with health and safety guidelines. They also will inspect units at hall closing for break periods to ensure that all closing instructions were followed.

Room Personalization Policy

Your suite is your home-away-from-home. Arranging the décor of your space is an extension of your desire to express yourself and to make yourself and/or your room comfortable. We allow you to decorate or individualize your rooms so long as you adhere to university guidelines, do not create a fire hazard, damage university property or make periodic maintenance impossible. Residents of the suite are responsible for any damage caused by such things as nails, tacks, tape, etc. Marker boards, if used, must be removed upon your departure. Any damage caused by its removal or damage caused by the marker will result in a bill to the resident(s). Damage to any residential space will be dealt with through the residence hall conduct system and/or the Residence Life Office and the responsible student(s) will be billed accordingly. You remain responsible for all original furniture in your suite. Space limitations prohibit furniture storage outside your suite. No items can obstruct the proper functioning of such items as doors, smoke sensors and sprinkler heads.

Holiday Decoration Policy

All electrical decorations should bear the UL label. All decorations should be located so as not to obstruct exits, fire hoses, fire extinguishers, fire alarm pull stations, sprinkler heads, or any heating device. Make sure there is a clear path to the door of your suite from your bedroom or sleeping area at all times. Central hallways and doorways must also be clear. No decorations of any kind shall be suspended from heat pipes, fire or electrical systems. Doors shall not be gift-wrapped. Because they can constitute a fire hazard, the university does not permit cut Christmas trees in the residence halls.

Approval for Posting Signs and Flyers

Bulletins boards on residential floors are reserved for the exclusive use of the Residence Life staff. Any other signs may be posted on designated bulletin boards, generally in lobby areas, after approval by Residence Life staff. All postings without stamped approval or hung in unauthorized locations will be removed. Postings may not promote or advertise parties, alcohol/drug use or contain obscene language or graphic content.

Directory Information Policy

Residence Life personnel follow these guidelines when they are asked for directory information:

1. Directory information is defined as home address, residence hall, room number, and residence hall telephone number.
2. This information will be given out only in response to specific requests (i.e., asking for a specific person’s address, room number, or telephone number).
3. You have the right to request that directory information not be released to non-university personnel. This request may be made at any time, and should be directed to the Residence Hall Director. In addition, phone numbers or rooms, depending on availability, may be changed to avoid problems arising from information being given out.

45
Chemical Substances

Consuming or possessing alcohol on state-owned property (which includes the entire campus as well as the residence halls) is prohibited even if a person is of legal age. Using or possessing narcotics, hallucinogens or other controlled substances except with a medical prescription is prohibited on campus. Smoking is not permitted in the residence halls, the breezeway or within 30 feet of the buildings.

Paraphernalia connected with drug or alcohol use (beer tap, bar, pipes, bong, empty containers, etc.) is prohibited in the residence halls.

No event that includes the serving or consumption of alcohol may be advertised in the residence halls.

Violation of any drug or alcohol policy may result in, but not be limited to, referral to alcohol/drug screening and assessment, mandatory participation in alcohol education, probation, movement to another residence hall, dismissal from the residence halls without refund of fees, and possible legal action.

Alcohol or drug use can also lead to interpersonal violence, noise violations or vandalism, which increase residence hall costs. All of these activities also merit sanctions and/or legal action.

Noise

Both courtesy and quiet hours ensure a resident’s right to be able to sleep or study at any time without undue interference from noise. Courtesy hours are in effect at all times in the residence halls and we expect you to be considerate of others’ needs or requests.

Quiet hours are set with your participation as a part of the Community Standards process and posted for each community area. We encourage you to help create the atmosphere necessary for your academic success. During quiet hours, noise (music, conversation, TV, etc.) from your room should not be able to be heard in the hallways, rooms above, below or beside you, or outside the building. Guests as well as residents must follow the policies in effect in each residential community. Guests who violate quiet hours will be asked to leave, and continued problems from a resident may result in being moved to another area.

Damages

Students are responsible for the condition of their rooms/suites and all university furnishings. The room condition report completed by staff and that you sign at check-in will be used as the basis for all damage billing. Damage assessments will be done when you move out of your room/suite or when it is noted by staff. Residence Life staff periodically conduct informal room inspections for health and safety and will address any damage noted.

Damages to common areas (lounge areas, hallways, etc.) will be billed to those responsible for the damage. If responsibility is not determined, charges will be distributed among all members of the appropriate community (wing, floor, or building).

Prohibited Actions

The following activities are not allowed in the residence halls:

VULCAN SPIRIT

VULCAN: THE MASCOT  After a semester-long search for a mascot, the student body and newspaper staff in 1933, of what was then California State Teachers College, chose Vulcans as the nickname for the school's athletic teams.

The Roman god of fire and volcanoes, a rough equivalent of the Greek god of smithies and ironworking, was perceived as a particularly apt symbol of the school's new Department of Industrial Arts.

The February 15, 1933, issue of the California News declared, “We are proud of California and therefore we want her to have a nickname that will spontaneously roll off the tongues of industrious sports reporters and enthusiastic students.”

Since adopting a mascot in 1933, the Vulcan has undergone a number of changes. One logo that survived into the ‘50s was simply a silhouette of a smith at his forge. In the late ‘60s appeared a full-faced Vulcan, who looked not unlike Zeus prepared for a Hollywood screen test. The late ‘70s featured a hammer-wielding cartoon version of the god. In 2003, a lively mascot named Blaze joined Cal U's cheerleaders.

The Cal Vulcan, by the way, is no kin of Star Trek's Mr. Spock.

Alma Mater
California, Alma Mater,
Now we sing to thee.
California, dear forever
In our memory.
With our voices loudly ringing
Of thy fame we're ever singing.
California, alma mater,
Hail! All hail to thee.

For the friends and joys you gave us
We give thanks to thee.
All thy knowledge we'll make worthy
For posterity.
May thy reign be ever prosperous
And thy fame be ever glorious.
California, alma mater,
Hail! All hail to thee.

HISTORY OF THE STUDENT ASSOCIATION, INCORPORATED (SAI)

Since California State Teacher's College was located on a small campus, a search began in 1930 for additional space to accommodate activities that could not be carried out satisfactorily on the restricted campus. The Women's Athletic Association set out to earn money to build or purchase a cabin that would be used for overnight hikes, weekends or any other purpose suited for women's activities.

Accordingly, the organization sponsored the W.A.A. Bazaar. This Bazaar took much the form of a county fair. It was planned far in advance and created a great deal of interest. Booths were set up and the activities continued for two or three days. The students paid an admission fee to the various booths and purchased articles that were for sale. Over a period of time, the W.A.A. accumulated close to $2000.

The Thomas Lilley Farm, a tract of approximately 82 acres, containing two large, stone buildings, was available for purchase. This had once been a flourishing farm property in the area of California and was located less than two miles from the campus. The farm could be bought for $3000. In order to make the purchase, the W.A.A. funds were used as a down payment. A mortgage was taken for the balance. It was considered best to develop a corporation in order to facilitate and to manage this property. The non-profit corporation known as the Student Activities Association was formed in 1937. This provided as incorporators, the president of the Board of Trustees, the president of the college, three members chosen from the Women's Athletic Association and two members of the general student body. This non-profit corporation was able to receive gifts for the improvement of the property or the retiring of the mortgage. The Student Congress and other organizations turned over the unused balances of the accounts to the corporation at the end of the year. In addition, there were a number of "dead" accounts that existed in the banks of California, leaving balances in the accounts of defunct organizations, class councils and others whose books had been lost or the officers did not provide suitable records for turning over balances to succeeding treasurers. Many of these accounts were of long standing and about to be escheated to the State Treasury. Under the new system of unified direction of activities, Student Congress approved to put all accounts into a single bank and deposit made through the business office. The defunct accounts were made available to the corporation and applied to the mortgage. The college bookstore also contributed grants to the corporation. The farm was under the general direction of the original incorporators. The mortgage was paid and improvements were made.

Over the years the Student Activities Association expanded to encompass all student organizations and activities. It was responsible for not only the college farm, but for all college clubs and campus programs, the campus radio station, WCAL, the California Times newspaper and special events. These increased functions and responsibilities brought about a need for a central facility that would be operated by the association. The board of directors, recognizing this need, worked with the college president and board of trustees to make arrangements with the state to build a student center on the campus.

Under the terms of this agreement, the Commonwealth of Pennsylvania was to erect and to maintain the 42,000 sq. ft. building. In return, each student would pay a ten dollar building fee each semester. The California Memorial Union was completed in 1971 and dedicated to those who had contributed to the "intellectual, cultural, social and aesthetic growth of the community." In 1979, forty-two years after its inception, the corporation changed its name to the Student Association Incorporated (SAI). In the early to mid 1980's the university was feeling the effects of a fitness craze that was sweeping the nation. The demand for additional recreation and fitness facilities rose dramatically. The student body approved the use of $500,000 of the Student Association's capital base to renovate the Herron Gymnatorium into a fitness center. The student body further agreed to pay a fifteen-dollar fitness center fee each semester. This fee would be used to repay the Student Association and to cover operating costs of the center. In 1986, the Student Association opened the Herron Recreation & Fitness Center. The center featured racquetball courts, state-of-the-art fitness equipment, an aerobic room, a stationary bike room, swimming pool, a basketball court, volleyball court, whirlpool and steam room, men and women's saunas, along with a professional health and fitness staff. The center also included the Patio Restaurant, which featured green house and outdoor seating.

In 1986, The Student Association renamed the college farm the George H. Roadman Park in honor of the former California State College president from 1968-1976.

In 1987, the Student Association celebrated its fiftieth anniversary and redecorated itself to the "intellectual, cultural, social and aesthetic growth of the university and surrounding communities."

In 1988, the Student Association purchased a 10-acre tract of land adjacent to the Roadman Park at a cost of $55,000. The board of directors adopted a long range Roadman Park development plan. This plan calls for additional playing and practice fields, distribution of water throughout the complex, additional restroom facilities.

From 1971 to 1988, the Student Activities Association continued to grow and expand. Auxiliary services such as food service, laundry service, vending machines, pay telephone, Channel 29 (CUTV); the Fayette County Head Start Program; and computer sales, became the responsibility of the association. Increased emphasis on Greek affairs, commuter services and off campus housing also contributed to the association's rapid growth.

These increased functions and responsibilities along with a steady increase in enrollment brought about a need for additional space in the student union. The Vice President for Student Affairs, recognizing this need, established a planning committee to study the feasibility of expanding the student union. The results of the feasibility study confirmed the need for additional space in the student union. In 1989, the student body approved to proceed with an $8,000,000 student union addition. The SAI Board of Directors, Student Congress, the Board of Trustees, Commuter Council, the Graduate Student Association, the Inter-Residence Hall Council and other student groups also approved the plan.

Under the terms of this agreement, the Commonwealth of Pennsylvania erected a 42,000 sq. ft. addition. In return, each student will pay an additional sixty-five dollar building fee each semester. Grand opening was fall of 1992. The award-winning Elmo Natali Student Center offers the Cal U Student Bookstore, the Washington Food Court, the Vulcan Movie Theatre, and meeting and recreational spaces. The Student Center houses a number of organizational offices that you should get to know.

By 1999, the University's housing stock was dated. The typical double occupancy residence hall rooms with gang shower facilities did not meet the needs of the students. Modern, private, air conditioned student housing was in demand. In 1999, the Association began design work on a garden style apartment complex. The complex included 108 units, each with four private bedrooms with private baths, full kitchen, and living room. Each air-conditioned apartment would be fully furnished including full size beds, washer and dryer, refrigerator, stove, microwave oven, and garbage disposal. The complex would include a clubhouse, which featured rental offices, a recreation room, fitness center, study rooms, and a computer lab. A swimming pool, basketball court and sand volleyball court would also be located within the apartment complex. In 2000, the Association selected JPI, a Texas firm to design and construct the $16 million project on a portion of Roadman Park. Construction began in August 2000. The project was completed in August of 2001, and the apartment complex opened with 100 percent occupancy.

In 2002, the university and the association partnered in an aggressive multiple phase project to replace all the on-campus residence halls. In the spring of 2003, the University leased land to the Association. McCloskey Hall and Johnson Halls were demolished, and three new residence halls were constructed near the student center. The 705-bed project opened in August of 2004 with 100 percent occupancy.
During this same period, the Association completed construction of an additional four garden style apartment buildings at its’ Vulcan Village location near Roadman Park. The expansion included a mix of four bedrooms and two bedroom apartments, each with two baths, full kitchen, and living room. Each air-conditioned apartment is fully furnished including full size beds, washer and dryer, refrigerator, stove, microwave oven, and garbage disposal.

In the fall of 2004, the University and the Association began planning for the next phase of the on-campus residence hall replacement project. Under this phase, Clyde Hall, Stanley Hall were demolished, and two new residence halls were erected near the Student Center. The next phase of the project which began in 2006 eliminated the last remaining traditional halls, Longanecker and Binns and the Student Health Center. The new hall open for occupancy in August 2007 also houses, the University Health Center, Counseling Center, Women’s Center and Multicultural Offices.

In an effort to drastically increase recreational and meeting space at California University of Pennsylvania, the Student Association, Inc. (SAI) continues its legacy with the purchase of a 94 acre farm near Roadman Park, now known as the SAI Farm, in May 2010. The SAI Farm purchase increases the overall size of California University Campus by 50 percent.

In order to maximize the recreational potential of the property, SAI partnered with MacLachlan Cornelius & Filoni to develop a Master Plan that will include many student and academic amenities implemented in phases over approximately 15 years.

In addition to the vast open space, the property also has an existing stone farmhouse, springhouse and barn. The farmhouse completed renovations in Spring 2011 and includes three smart conference rooms, lounge space, a new and a 1,200 Sq Ft. rustic style banquet addition capable of hosting approx. 60 guests. The springhouse will serve as a bar style beverage serving station to the patio just off of the banquet hall addition. The lower section of the barn, formerly used as milking station for dairy cows, is being transformed to accommodate brief meeting space needs of various academic programs utilizing the property.

With the acquisition of the property, a unique opportunity for garden space also presented itself. SAI has partnered with the campus food service provider, AVI, to cultivate a local sustainable produce garden to help supplement various dining locations at the university. In time, additional gardens plots will be offered to the university community for growing personal gardens at the SAI Farm. In line with the growing sustainability initiatives of the university, all irrigation to the gardens will be provided by a natural spring that runs through the property.

During the summer of 2011, a newly formed Disc Golf Club volunteered many hours and implemented a full 18 hole disc golf course throughout the property. The course covers approx. 60 challenging acres starting near the Farmhouse to the upper elevation of the property. The course was fully designed and implemented by the club members themselves.

The effectiveness of the organization is beyond question. California’s Student Association, Inc., was the first of its kind in the nation. Several of our sister institutions have used our Student Association, Inc. as a model when organizing their own student activities divisions.

SEXUAL ASSAULT PROTOCOL

PURPOSE
The University recognizes that sexual offenses may have serious and sometimes life-threatening repercussions for survivors. For this reason, a clear statement of policy is essential. In compliance with the Student Right-to-Know and Campus Security Act and the Higher Education Amendments of 1992, institutional policies specific to sex offenses are as follows:

POLICY
California University of Pennsylvania seeks to provide an environment that protects the rights and well-being of everyone on campus. Therefore, the University will not tolerate sexual offenses against any person by any member of the University community. Should there be sufficient cause to believe a member of the University community may have committed a sexual offense, judicial action may be taken by the appropriate disciplinary body, whether or not the case is pursued under Commonwealth criminal or civil codes. The University may impose severe penalties independent of such Commonwealth court action.

DEFINITIONS

Non-consensual Sexual Contact (or attempts to commit same) – Any intentional sexual touching, however slight, with any object, by a man or a woman upon a man or a woman, that is without consent and/or by force. Sexual contact includes intentional contact with the breast, buttocks, groin or genitals, or touching another with any of these body parts, or making another touch you or themselves with or on any of these body parts; any intentional bodily contact in a sexual manner, though not involving contact with/of/by breasts, buttocks, groin, genitals, mouth or other orifice.

Non-Consensual Sexual Intercourse (or attempts to commit same) – Any sexual intercourse, however slight, with any object, by a man or woman upon a man or woman, that is without consent and/or by force. Intercourse includes vaginal penetration by a penis, object, tongue or finger, anal penetration by a penis, object, tongue or finger and oral copulation (mouth to genital contact or genital to mouth contact), no matter how slight the penetration or contact.

Consent – Positive cooperation in act, behavior or words, without any coercion or threat of coercion. Consent is clear, knowing and voluntary. Both parties must understand the nature of the activity. Consent cannot be implied if either participant is unable to provide positive cooperation or state his/her wishes due to unconsciousness or injury, mental incompetence, age, or intoxication and this fact is known or reasonably should have been known by the person committing the act. Also a lack of protest or previous cooperation does not imply consent. Consent can be withdrawn at any time during an interaction.

TIPS IF YOU ARE A SEXUAL ASSAULT SURVIVOR

• Get to a safe place as soon as you can.
• Try to preserve all physical evidence. Do not wash, use the toilet, or change clothing, if you can avoid it. If you do change clothing, put all clothing you were wearing at the time of the attack in a paper bag, not plastic.
• Get medical attention as soon as possible. A medical examination will provide any necessary treatment and collect important evidence. Injuries may not be immediately apparent. If you suspect you were drugged, ask that a urine sample be collected. The sample will need to be analyzed later on by a forensic lab.
• Contact University resources. POLICY: Missing Student Policy

A. Purpose & Scope:
All colleges and universities with on-campus housing are required by the Higher Education Opportunity Act of 2008 to have a written policy addressing how reports of missing students will be handled. This policy places California University in compliance with this federal mandate by outlining how reports of missing students, regardless of residency, will be addressed.

B. Definition(s):
The University will consider a student missing if, s/he fails to appear as expected at a predetermined location after 24 hours, a preliminary check by the University of the student’s residence supports the view that the student is not present and other efforts to contact the student fail. The University will consider additional factors to determine a student is missing if appropriate depending on circumstances.

C. Policy:
ANY PERSON WHO HAS REASON TO BELIEVE THAT A CALIFORNIA UNIVERSITY OF PENNSYLVANIA STUDENT IS MISSING SHOULD CONTACT THE UNIVERSITY POLICE AT 724-938-4357 (HELP).

When a report that a student may be missing is received, all reasonably available steps will be taken to locate the student to determine his/her state of health and well-being. These efforts will include action by members of the University Police and the Division of Student Affairs.

The University will consider a student missing if, s/he fails to appear as expected at a predetermined location after 24 hours, a preliminary check by the University of the student’s residence supports the view that the student is not present and other efforts to contact the student fail. The University will consider additional factors to determine a student is missing if appropriate depending on circumstances.

If the student is not located within 24 hours of the initial report, University officials will contact the student’s designated Emergency Contact Person or family if appropriate to notify them of the report and determine if he or she has any information that would assist in finding the student. (If the student’s designated Emergency Contact Person or family if appropriate was involved in the initial report, University staff will inform that person of the results of the preliminary efforts and explain any additional steps being taken.) If the student lives on campus, University Police will open an official investigation and retain status as the primary investigative unit. If the student resides off-campus, University staff will assist the designated Emergency Contact Person in making an official missing person report to all appropriate law enforcement agencies. University officials will assist in any investigation as appropriate.

Students may provide a designated Emergency Contact Person to the University who will be notified in case s/he is determined to be missing. The designation can be made through VIP. The designated Emergency Contact Person may be a family member or any other person determined by the student. Please be aware that, if a student under 18 years of age is determined to be missing, the University is required to notify a custodial parent or guardian in addition to any other designated Emergency Contact Person. If an Emergency Contact Person is not designated, the student’s closest identified family member will be notified. Contact information provided by students will be kept confidential and will only be accessible to university officials.

ACADEMIC ADVISING

DEVELOPMENTAL ADVISING: A DEFINITION

“Developmental academic advising is defined as a systematic process based on a close student-advisor relationship intended to aid students in achieving educational, career, and personal goals through the utilization of the full range of institutional and community resources. It both stimulates and supports students in their quest for an enriched quality of life. Developmental advising relationships focus on identifying and accomplishing life goals, acquiring skills and attitudes that promote intellectual and personal growth, and sharing concerns for each other and for the academic community. Developmental academic advising reflects the institution's mission of total student development and is most likely to be realized when the academic affairs and student affairs divisions collaborate in its implementation.”

To realize the goals of developmental advising, seven principles are essential to the advising process. They are:

- Advising is a continuous process with an accumulation of personal contacts between advisor and student – these contacts have both direction and purpose.
- Advising must concern itself with quality-of-life issues, and the advisor has a responsibility to attend to the quality of the student's experience in college.
- Advising is goal related. The goals should be established and owned by the student and should encompass academic, career, and personal development areas.
- Advising requires the establishment of a caring human relationship, one in which the advisor must take primary responsibility for its initial development.
- Advisors should be models for students to emulate, specifically demonstrating behaviors that lead to self-responsibility and self-directiveness.
- Advising should seek to integrate the services and expertise of both academic and student affairs professionals.
- Advisors should seek to utilize as many campus and community resources as possible.

THE STUDENT AS AN ADVISEE: RESPONSIBILITIES

To take advantage of the opportunities offered by the advisement program, you, the student should:

- See your advisor at any time you need the advisor's assistance.
- Think carefully about your personal, academic, and career goals so that you may plan with your advisor for achieving your educational goals.
- Ask yourself: What are my strengths? Make a list of your personal and academic strengths.
- Identify any special situations affecting you achieving your educational goals, such as limits on your time, work schedule, lack of background, other commitments, etc.
- Become familiar with the academic policies in the Catalog and the “Condensed Explanation” in this manual. Your advisor will answer questions you may have.
- Become familiar with the requirements for your course of study; these are summarized for you on an advising sheet for your area of study.
- Visit your advisor the third or fourth week of each semester to discuss your progress in your courses and to gain assistance, if you need it.
- Arrange a conference with your advisor before each early registration period.
- Discover with the advisor sources of assistance and information, as needed.

Acquire and keep material useful to you in advisement and in developing a four-year academic plan, such as a major advising sheet, suggested four-year course sequence for your major, class schedules, scheduled adjustment forms, etc. The advisor will either supply these materials or suggest to you where they may be obtained.

NOTE: If you do not know who your advisor is, contact the department of your major area of study for your assigned advisor.

You must also understand the role of the advisor. The list, which follows, describes the facilitating role, which your advisor assumes. He or she is not to do all of the work for you, but is to help you learn the policies and procedures, which govern your academic experience.

ASSISTANCE FROM THE ADVISOR: RESPONSIBILITIES

Your advisor:

- is your resource person.
- is a person to whom you can talk, a good listener.
- has knowledge of academic policies and procedures and can explain them to you, if you need assistance.
- will help you to learn to make decisions about your goals, your program of study, your course selections, and your career.
- will aid you in learning the requirements for your chosen area of study.
- will aid you in assembling materials and information, which will help you plan your four-year educational experience.
- will assist you in registering.
- will be able to refer you to other resources for assistance.
- will have office hours posted on his or her office door during which you may see him or her. For other times you may arrange an appointment by contacting your advisor or a secretary in the department.

Descriptions ofAdvisee and Advisor responsibilities were modified from those listed in the Advisor's Manual of Coastal Georgia Community College, Brunswick, Georgia.
A CONDENSED EXPLANATION OF ACADEMIC POLICIES AND PROCEDURES

Students are encouraged to read the “Academic Procedures” section of the University Catalog for a more detailed discussion of each of the following topics. The topics, which follow, do not constitute a comprehensive list of academic rules or regulations. Only the topics most frequently encountered are dealt with here in an abbreviated format.

Semester System: California University operates on a semester system with fall and spring semesters of sixteen (16) weeks each, which includes a one-week final exam period. In addition, there is a ten (10) week summer session. In a semester system the courses usually carry 3-hours of credit, one hour for each 50 minutes of lecture per week. Laboratories usually carry 0 or 1-hour credit for two or three hours of class per week.

Course Load: A full course load for an undergraduate student would total 12-18 credits (4-6 three-credit courses). A student is enrolled full-time if registered for at least 12 credit hours per semester; part-time enrollment would be less than 12 credit hours per semester. To enroll for more than 18 credits requires special permission and completion of a Credit Overload Authorization form.

Course Policy Statement (Syllabus): Each faculty member should furnish a course policy statement at the beginning of the term. The statement explains the expectations of the student in the course, grading procedure, attendance requirements, etc.

Grades: Students earn grades reflective of their command of subject matter in a given course. A grade of “A” indicates superior attainment; a grade of “B” indicates above average; a grade of “C” indicates average performance; a grade of “D” is the lowest passing grade and is below average; a grade of “F” is failure in the course and the student receives no credit for the course. Other grades are discussed in the appropriate section of the University Catalog.

Quality Points: Each grade receives a number of quality points per credit hour. Grades of “A” = 4.00 quality points (QP’s), “A – ” = 3.67 QP’s, “B+” = 3.33 QP’s, “B” = 3.00 QP’s, “B– ” = 2.67 QP’s, “C+” = 2.33 QP’s, “C” = 2.00 QP’s, “C– ” = 1.67 QP’s, “D” = 1.00 QP’s, and “F” = 0.00 QP’s. The quality points are important in determining the quality point average (QPA) which is also referred to as the grade point average (GPA). For example:

Each grade is assigned its number of quality points per credit hour. Multiplying the number of credits in the course by the number of quality points earned. The total number of quality points earned divided by the total number of credits attempted yields the quality/grade point average. In the example above, 30/15 = 2.00 QPA/GPA.

Repeating Courses: A student is allowed to repeat any course at California University of Pennsylvania to improve the grade or to enhance his/her knowledge of the subject. Undergraduate students will be limited to a maximum total of 6 repeats. A single course may be repeated for grade improvement a maximum of three times. The most recent grade (even if it is lower) is used to calculate the QPA/GPA. Courses taken at another college do not affect the QPA/GPA or the repeat policy. Students should not take courses elsewhere if they can repeat them at California University of Pennsylvania to improve their GPA. Students who repeat classes should notify the Office of Academic Records to ensure that the repeated grade is reflected in the GPA.

Good Academic Standing: The University expects a minimum Quality Point Average (QPA) or Grade Point Average (GPA) of 2.00 and most programs require a minimum QPA of 2.00 in order to graduate. Students who achieve the minimum- required 2.00 QPA or GPA are in good academic standing.

Students who do not achieve the minimum QPA will be subject to Academic Probation or Academic Dismissal. Satisfactory academic progress is required for continued eligibility for financial aid.

All earned credits, including transfer credits and other advanced standing credits that have been officially accepted, are counted in determining a student's class rank. All Quality Hours (QHRS) at California University are used in determining a student’s QPA.

Academic Assistance Programs

Academic Warning: Students whose cumulative QPA falls below a 2.00 for one semester will be placed on academic warning. Students on academic warning will be expected to participate in Academic Healthy U and other services offered by the Office of Student Retention & Success. Students who are on academic warning will meet one-on-one with a trained Graduate Assistant several times throughout the semester and receive weekly e-mails with helpful hints and an offer of academic assistance. This program is designed to give students on academic warning additional support to strengthen academic study skills.

Academic Probation: Students whose cumulative QPA falls below 2.00 for the second consecutive semester are placed on academic probation. Students on academic probation will be expected to participate in the Probationary Assistance (PASS) Program and other services offered by the Office of Student Retention and Success.

The PASS Program provides the additional structure and support that may be necessary for student academic success. Participation in the PASS Program is required of students who are on first academic probation as well as students who have been dismissed for academic reasons and are subsequently readmitted.
The goal of the Probationary Assistance (PASS) Program is to provide students on probation with the tools needed to obtain good academic standing. PASS offers small group sessions of 8-10 students who meet weekly with a trained graduate assistant. The program is designed to help the student build a foundation for success through relevant information, activities and discussions. The small group sessions allow the leader to tailor the meetings to more closely meet the needs of each group. PASS provides an opportunity for each student to create an academic/personal plan for success based on individual goals.

Data indicate that students who participate actively in PASS have a greater probability of succeeding academically than those who do not.

A student who is placed on academic probation for one semester and fails to earn the required cumulative GPA, or fails to maintain a 2.00 for the probationary semester is subject to academic dismissal for at least one calendar year. A student may apply for readmission to the University by contacting the Office of Student Retention and Success at (724) 938-1525 or by accessing the application on-line: at www.calu.edu, search Readmission.

If you are experiencing some academic difficulties, consider the following tips when registering for classes for the next semester:

- Consider limiting your course load to 12 – 16 credits.
- Repeat classes in which you received an “E” (the repeated grade(s) is/are the one(s) that will be used to calculate your GPA).
- Do not take the next course in a sequence if you failed the first course.
- Balance a schedule with reading (history, sociology) and process (math, computer science) courses.
- Where there exists confusion over the major course of study, consider enrolling in XCP 194, Career Planning, or visit the Office of Career Services for assistance.
- Begin the next semester committed to using the academic supports available to you, e.g. Math Lab, Writing Center and Reading Clinic.

Semester Honors (Dean's List): Full-time students are placed on the Dean's List according to the following semester GPA's: Highest Honors (3.75 – 4.00), High Honors (3.50 – 3.74), Honors (3.25 – 3.49).

Withdrawal (W) from Courses--Please Note: Students may withdraw from classes during the first 10 weeks of the fall or spring semester. To withdraw from a class a Schedule Adjustment (drop/add) form needs to be completed and taken to the Office of Academic Records. A LATE START class option is offered during fall and spring beginning at midterm. If you are on financial aid, make certain to check with that office before withdrawing from courses.

Withdrawal from the University: A student who decides to withdraw from the University during any academic term, regardless of the reason, is required to report to the Office of Academic Records to obtain withdrawal forms. Please refer to the University Catalog for additional information.

Drop/Add Procedure: The procedure for dropping a course is the same for withdrawal from a course. To add a class, students must complete a schedule adjustment form (Drop/Add Form) and obtain the necessary signatures indicated: advisor, instructor of the class or department chair, and dean of the college offering the class. The completed form is taken to the Office of Academic Records. Keep a copy for you records.

Grades of “I”: Incomplete grades are given at the discretion of the instructor. Incompletes are usually given if the student has been making good academic progress and for some reason beyond his or her control cannot complete the course within the semester timeframe. The student has one year from the end of the semester in which the course was taken to complete the requirements. If the course requirements are not completed within this timeframe, the “I” becomes an “F”. If the course requirements are completed, the instructor must submit a grade change to the Office of Academic Records.

Grade Appeals and Appeals of Other Academic Decisions: If a student receives a grade, which he or she believes is not reflective of his or her command of the subject matter and level of performance, a grade appeal may be in order. The student has a right to appeal the grade to the instructor. If the matter is not resolved, the student then appeals within 30 days of the beginning of the forthcoming spring or fall semester in writing to the department chair. If the matter is not resolved at this level, appeal is made to the dean of the college in which the course was offered. The Provost and Vice-President for Academic Affairs is the next level of appeal, but only if the procedure has, thus far, failed to resolve the conflict. Students should follow these procedures only if they are convinced that arbitrary and/or capacious standards were applied.

Appeals for other academic decisions should follow a similar process: Appeal first at the instructor level and make subsequent appeals in writing. The order of appeal should be Instructor, Department Chair, Dean, and Provost.

Change of Major: There is a form used for a change of major. Students changing to a major under the College of Liberal Arts or the Elderly College of Science & Technology should go to the office of the college responsible for the new major to initiate a change of major. Students changing to a major under the College of Education should take the major change form to the department.

Permission to Take Courses Elsewhere: There is an approval form for taking courses at another college. Please NOTE: A student's QPA/GPA is not affected by courses taken at another institution. Also, courses with “D” grades transfer to California University of Pennsylvania only if the student earns an overall GPA of 2.00 or higher from the transfer institution.

Pre-Graduation Checkout: This process helps you, your advisor, and the Office of the Dean to monitor your progress toward a degree. The student must request a graduation checkout and the request should be made at least a year prior to the expected graduation date. Students should also become familiar with Degree Works, so that they are able to monitor their own academic progress.

Graduation Requirements: A student wishing to graduate from the University:

- Must apply for graduation.
- Should complete a graduation checkout, preferably before the final year.
- Must earn the required number of credits and complete satisfactorily all of the required courses for the specific curriculum in which enrolled.
- Must earn an overall GPA of 2.00 and meet other expectations required by the Area of Concentration.
- Must pay all bills in full.
- Must complete a minimum of 30 credits of the last 60 credits at the University.
• Must complete all records necessary for graduation.

All students who expect to complete graduation requirements are to pick up instructions from the Office of the Dean at the beginning of the semester they intend to graduate. A more complete description of graduation requirements is found in the University Catalog.

Career Exploration: If students have questions about their majors – the kinds of careers the majors lead to, the future availability of jobs in an area, or simply what they want to do in life – they should seek career counseling in the Career Services Center located in the Eberly Science and Technology Building. Software packages, FOCUS, are available for student use. Also, co-op and job placement assistance can be obtained at the Center. Help with resume writing, interviewing techniques, etc., is available upon request or through workshops offered by the Center. Students should take full advantage of the Career Advantage Program offered by the University.

GETTING INVOLVED:
THE CULTURE OF STUDENT PHILANTHROPY

Learning to “Pay it Forward”
Philanthropy is the act of giving something (usually money) to a worthwhile cause, for the betterment of everyone. In the case of Student Philanthropy, the word takes on a slightly different meaning. It could mean volunteering your time, finances, talent or special skills to benefit a worthwhile cause. It could mean offering a hand to someone who needs help finding his or her classroom on the first day of the new semester. Or it could mean serving as a mentor or as a big brother/big sister to a young person in need. Ultimately, it’s what you can give of yourself that matters most.

Philanthropy in the community
Your home community is one of the easiest places to find ways to get involved. Do you belong to a community group, such as Rotary, Boy Scouts, Girl Scouts or a church group? Is there a need such as a blood drive, a volunteer fire company’s boot drive, or other fundraising activity that could use your assistance, whether financial or physical? If you know of a place in need, jump in and help! Remember, every bit goes a long way.

Philanthropy at Cal U
There are many areas where you can help right here at Cal U. Become a Peer Mentor and help a new student navigate his or her way through the first days as a college student. Or volunteer for Habitat For Humanity or another similar organization — Cal U’s Center for Civic Engagement can connect you with service opportunities. Fraternities, sororities and other similar groups are also wonderful sources of philanthropic activity. Through the Cal U for Life program, all students are encouraged to build strong ties to the University and to volunteer their time, talent and treasure when they are able.

The ultimate way to help your school is through scholarships. Each year, the cost of attending Cal U rises. This is truly an unfortunate result of reduced funding on the state level, combined with the rising costs of maintaining the University. Regretfully, some of our best and brightest students can’t afford the costs associated with attending Cal U. But there is a solution to this problem — scholarships. The University’s goal is to offer as much financial assistance to our students as possible. In order to do that, we look to our alumni, the community and to our students for their support.

You don’t have to be wealthy to support a scholarship. Even very small gifts add up quickly when many people participate. It is truly an act of “paying it forward” to establish or help to support a scholarship. How can you help? By making small donations to the scholarship of your choice, helping to establish a new scholarship, or volunteering your time, talent and resources to raise funds for scholarships. It’s truly the way to help “pay it forward” at Cal U.

Where Can I Go?
Have we piqued your interest? For more information on organizations on campus that could use your help, visit the Cal U website and click on Campus Life on the menu on the left. There, you will find links to information on clubs and organizations on campus, as well as information on the Student Activities Board and more. You will also find the names and associated contact information for each of the groups listed. More information is available on the University website; look under the tabs marked “Giving” and “Cal U for Life.”

KEEPING INVOLVED:
CALIFORNIA UNIVERSITY OF PA
ALUMNI ASSOCIATION

Your bond with Cal U does not end when you receive your diploma. Upon graduation, you automatically become a member of an elite organization: the Cal U Alumni Association.

Formed in 1883, the Alumni Association is an energetic group of alumni who strive to maintain an active link to the University and to the community it serves through activities, mentoring, networking and more.

The Alumni Association is volunteer-driven, and its success depends on the support of Cal U graduates. Alumni chapters volunteer their time and energy to:

• Assist in student recruitment initiatives in your area.
• Plan a reunion for your class or organization.
• Help coordinate a reception in your area.
• Serve as a mentor for a college student.
• Serve on the Alumni Association Board of Directors.

Currently, Cal U has active alumni chapters in the following cities (among others, forming all the time):
Pittsburgh
Harrisburg
Philadelphia
Washington, D.C.
New York City Region
Tampa
Orange County, Calif.

Cal U alumni societies:
Industrial Arts/Teach Ed Society
Athletic Training Society
African American Alumni Society
Graphic Communications Society
Social Work Society

Plans for new nationwide chapters are currently under way, so plan to join a chapter near you after graduation, or volunteer your time to help begin a chapter or society. You will find the Alumni Association to be an invaluable resource for networking, socializing and most of all, maintaining your lifelong relationship to Cal U.

Effective communication is essential to the Alumni Association. The Cal U Review, the University's alumni magazine, is printed quarterly and features information on the University, along with campus activities and announcements of interest to alumni. Electronic communications including the Under the Towers monthly e-newsletter, an online community, and even a permanent Cal U alumni e-mail account help to keep you in touch.

As an alumnus, you also may take advantage of career planning services such as job search assistance, Career Net (job shadowing/career networking with alumni), cooperative education, resume/cover letter assistance, mock interviews, College Central network (online job and resume postings), on-campus recruiting, job fairs and the Career Resource Center.

But membership in the Alumni Association isn't all business. Football tailgates, performances by the Pittsburgh Symphony Orchestra, Pittsburgh Pirates games, Alumni Weekend, Homecoming activities and more help to keep the fun times at Cal U going for our alumni.

The Cal U Alumni Association and the Office of Alumni Relations & the Annual Fund are always looking for new ideas. If you have an idea for an alumni event or project, feel free to share it with the Office of Alumni Relations & the Annual Fund. All ideas are welcome!

Please visit the Alumni Association website often at www.calu.edu/alumni or email at alumni@calu.edu. The Office of Alumni Relations & the Annual Fund can also be contacted by phone at 724-938-4418.
