Program Notes:

The requirements for this program are flexible. California University collaborates with companies, governmental agencies, labor unions, educational institutions and individuals to design and deliver a professional technical core that includes the knowledge and skills employers demand. A general education component provides a balanced associate degree. The program addresses the rapidly expanding technician-level employment opportunities available in the new economy by providing customized technical concentrations that meet the ever-changing needs of business and industry.

Students must have a minimum overall 2.0 GPA to qualify for graduation.

Developmental Courses **do not** count toward graduation.

Required Related Courses: None

Related Technical Electives (Cal U): Variable

Free Electives: None

As an option and If needed, Related Technical Electives can be taken at California University of Pennsylvania as part of the 33 to 35 credits.
