

Business and Economics Graduate Programs

MBA in Business Administration: Accounting

Program Description

The Accounting concentration of the MBA program expands students' knowledge of accounting principles and practices. It builds technical, research and communication skills and is suitable for students with little to no accounting background who are interested in the role that accounting plays in business operations.

Students in this concentration:

- Learn how to use relevant professional accounting technology.
- Apply fundamental concepts of accounting to various business scenarios.
- Explore how national and international policy changes affect the accounting profession.

Note: It is recommended that students seeking to become certified public accountants pursue Cal U's M.Acc. degree. For just 48 credits, students are able to earn both the M.Acc. and the MBA: Accounting degrees.

Program Coordinator

Dr. Stephanie Adam

(Additional Contact: Joshua Chicarelli)

Delivery Mode

Blended or 100% Online

Accreditation

Programs in the Department of Business and Economics are accredited by the Accreditation Council for Business Schools and Programs (ACBSP), a leading specialized accreditation body for business education supporting, celebrating and rewarding teaching excellence. The association embraces the virtues of teaching excellence and emphasizes to students that it is essential to learn.
