## MBA in Business Administration: Healthcare Management

### Program Description

The Healthcare Management concentration of the MBA program focuses on business management skills that are relevant to professionals in medical and healthcare organizations.

Students in this concentration:

- Analyze healthcare markets and evaluate health policies using economic principles.
- Explore continuous process improvement tools and strategies as well as healthcare quality management.
- Learn how to use healthcare information systems to deliver cost-effective, high-quality healthcare.

### Program Coordinator

Dr. Stephanie Adam

### Delivery Mode

Blended or 100% Online

### Accreditation

Programs in the Department of Business and Economics are accredited by the Accreditation Council for Business Schools and Programs (ACBSP), a leading specialized accreditation body for business education supporting, celebrating and rewarding teaching excellence. The association embraces the virtues of teaching excellence and emphasizes to students that it is essential to learn.
