---

## Certificate in Homeland Security

### Program Description

The Homeland Security certificate program is designed for students who are seeking an academic credential related to federal, state or local homeland security and emergency management agencies, or in corporate security in the private sector. This increasingly important course of study takes an all-hazards approach while examining impact, prevention and sustainability from both the public and private sectors.

This post-baccalaureate certificate program includes graduate courses from the M.S. in Legal Studies: Homeland Security concentration program.
