

Doing Business with the U.S. Army Corps of Engineers Seminar

July 19, 2022

9:00 a.m. – Noon

SpringHill Suites by Marriott Pittsburgh, 3015 Pittsburgh Mills Blvd, Tarentum, PA 15084

The mission of the U.S. Army Corps of Engineers' falls into four broad areas of civil works projects. These include water infrastructure, environmental management and restoration, engineering and technical services and response to disasters. Regionally, the Pittsburgh District focus is on meeting water resources development, maintenance of recreational facilities, environmental engineering & other engineering needs. Recent procurement opportunities include, hydraulic system upgrades, fencing materials, road repair, metal fabrication, signage & grounds maintenance.

We look forward to seeing you on Tuesday, July 19, 2022, as Ms. Delonda "Dee" Ward, U.S. Army Corps of Engineers, Deputy for Small Business Pittsburgh/Buffalo Districts discusses:

- What the USACE Buys
- Changes with USACE's Solicitation Process
- Procurement Integrated Enterprise Environment PIEE Requirements
- USACE Pre-award and Post-award Activities
- Safety and Security Requirements
