

COVID-19 DECISION TREE

ARE YOU EXPERIENCING SYMPTOMS OF COVID-19?

YES

- Employees - Contact your supervisor. Get tested.
Students - Contact your campus health center. Get tested.
- Stay home and isolate in your room while you await your test results, even if you do not know if you've been in close contact with someone who has COVID-19. Do not attend in-person classes, and stay away from people you live with.
- Monitor your symptoms. If you have an emergency warning sign (including trouble breathing), seek emergency medical care immediately.
- If you test positive:
 - Isolate at home for 5 days.
Day 1 is the day after your symptoms appeared.
 - You can end isolation after day 5 if your symptoms have resolved or are resolving, including being fever-free for 24 hours without medication.
 - Wear a mask around others through day 10. Avoid places where you are unable to wear a mask such as gyms or restaurants. Utilize take-out or grab-and-go meal options.
- If you test negative, continue to avoid others until your symptoms improve to prevent the spread of your illness.

YES

- Wear a mask as soon as you find out you were exposed.
- Start counting the days from your last exposure. Day 0 is the day of your last exposure. Day 1 is the first full day after your last exposure. Wear a mask for at least 10 days after you have been exposed.
- Do not go places or engage in activities where you are unable to wear a mask.
- Watch for symptoms. If you develop symptoms isolate immediately and get tested.
- Get tested at least 5 full days after your last exposure. If you test negative continue wearing a mask through day 10. If you test positive isolate immediately.

NO

Have you been in close contact with someone who has COVID-19?
(within 6 feet for a cumulative total time of 15 minutes or more over a 24-hour period)

NO

Have you tested positive for COVID-19?

NO

No action is needed. Continue to monitor your health. If you develop symptoms, get tested.

YES

- Employees - Contact your supervisor.
Students - Contact your campus health center.
- Stay home and isolate in your room for 5 days. Do not attend work or in-person classes, and stay away from people you live with.
- If you remain symptom-free, you can end isolation after 5 days have passed since you had a positive test for COVID-19. Day 1 is the day after your test was collected.
- If you develop symptoms after testing positive, stay home for 5 full days after the onset of symptoms. Day 1 is the day after your symptoms began.
 - You can end isolation after day 5 if your symptoms have resolved or are resolving, including being fever-free for 24 hours without medication.
- Wear a mask around others through day 10. Avoid places where you are unable to wear a mask such as gyms or restaurants. Utilize take-out or grab-and-go meal options.
